

VWH-1 Small

Video wall mount

The VWH-1 Small is a full service video wall full service video wall mount with pop-out function.

The mount is suitable for screens from 32 - 40" | 81 - 102 cm to create a video-wall - especially for seamless displays.

The screen can be mounted in either landscape or portrait orientation.

The VESA mount supports the standards VESA 100 x 100 mm and VESA 200 x 200 mm.

The modular design allows unlimited configurations.

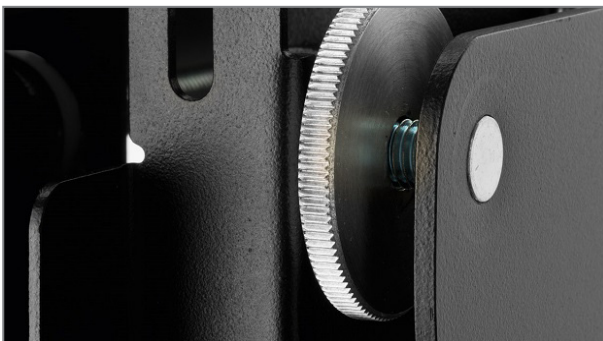

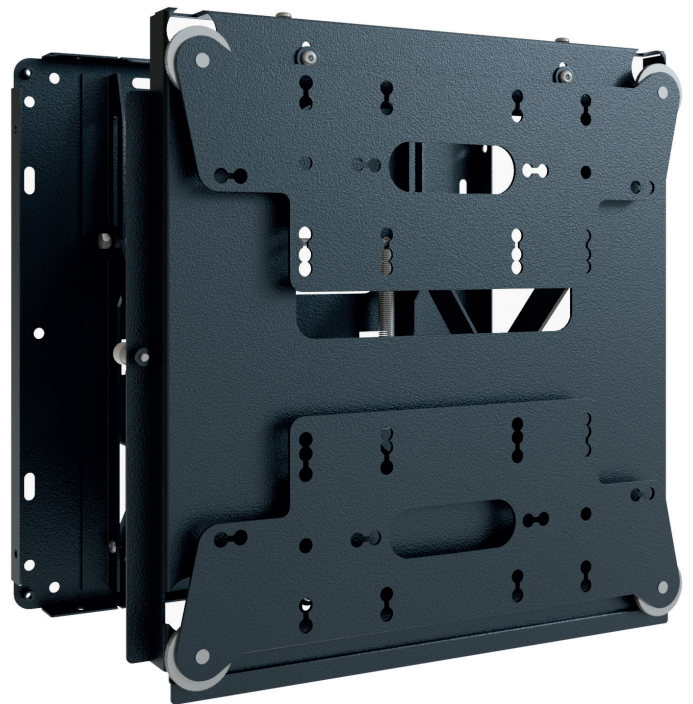

Item no.: 1511

The stable mechanism allows a variable wall distance from min. 87 mm to max. 267 mm.

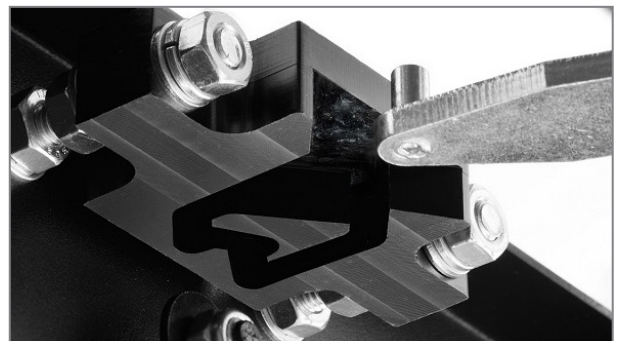

The pop-out mechanism ensures optimal service accessibility.

The mount has a level adjustment for depth and height and the possibility of moving the screen to the right and left, which enables perfect alignment.

The maximum load is 20 kg.

fine adjustment, no tools needed

pop-out system for optimal service access
