

## I-Beam adapter

Item no.: 1839

The I-Beam adapter, available as an optional accessory for the ceiling mounts of the PLD or th HA DH-series, allows a ceiling mount to be attached to a T or H beam.

The stably manufactured adapter can be adjusted to the width of the beam in a range between 100 and 260 mm and securely fixed.

The load of the installed bracket system remains untouched.
