

WH-Synchron 41

fullmotion wall mount

Item no.: 2061-1

The WH Synchron 41 is a fully movable wall mount for a screen from 32 up to 50" / 81 - 127 cm.

The wall mount offers, thanks to the stable wall extensions with three pivot joints, the possibility to advance the screen to such an extent that it can be swiveled continuously at an angle of up to $\pm 90^\circ$ to the wall (depending on the screen size). The wall distance is adjustable between 45 and 484 mm.

The screen can be used in landscape as well as portrait orientation (depends on screen size).

The mounting standards up to VESA 400 x 400 mm are supported.

The inclination of the screen can be continuously adjusted between -2 and $+12^\circ$. This and the large swivel range always allow a perfect alignment of the viewing angle.

Removable plastic covers ensure clean cable routing along the extension arms.

The load capacity of the system is 30 kg.

WH-Synchron 41

fullmotion wall mount

Item no.: 2061-1

- for screens from 32 up to 50" (81 - 127 cm)
