Cisco Room-Kit Adapter Dual
Dual adapter for Cisco Room-Kit 55", 65" and 75"

Item no.: 2282

The optional accessory, Cisco Room Kit Adapter Dual can be combined with several Cisco Room Kit models.

The stable dual adapter is suitable for dual screens with a size of 55" | 140 cm, 65" | 165 cm or 75" | 191 cm. It is continuously adjustable in height.

The surface is finished with a black, impact and scratch resistant powder-coating.

The adapter can easily be attached to an existing VESA mount up to VESA 800 mm max. and can therefore be used universally.

All necessary fastening materials are already included.

The maximum load capacity remains even when using the adapter.

The Cisco Room Kit Adapters are also available as a single variant suitable for Cisco Webex Board 55, Cisco Webex Board 70 and Cisco Webex Board 85S.
