

Info-Tower CLB

Mobile stand system with lockable media cabinet

Item no.: 2337

The Info-Tower CLB is a mobile stand system for a screen with a size of 32 to 65" / 81 - 165 cm, which has a lockable media cabinet.

The high-gloss black look allows use in conference rooms as well as at trade fairs and in sales areas.

The stable castors are concealed in the base of the Info-Tower and, if necessary, enables the entire stand system to be moved easily.

The column cover on the back is removable and allows easy access to the cabling, which finds enough space inside the column.

The VESA universal mount is already included in the scope of delivery and covers the VESA standard up to 800 x 600 mm. It is also optionally lockable.

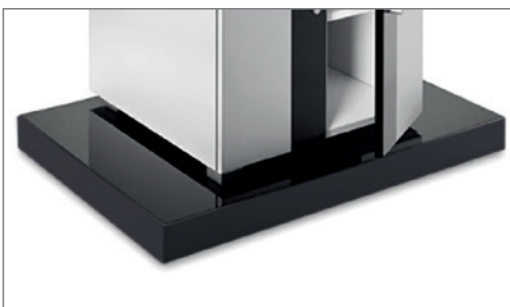

The VESA mount can be securely attached at different heights. The hanging height depends on the device, depending on the distance to the media cabinet.

The maximum load of the video conference trolley is 60 kg.

Thanks to a wide range of optional additional items, the system can also be easily adapted to special, individual requirements.

Expandable with accessories

concealed castors, high-gloss surfaced

incl. lockable media cabinet
