

## ScreenOut<sup>®</sup> Pro Back-to-Back 75"

Item no.: 2507

### Outdoor totem for two screens with heating and ventilation

The ScreenOut<sup>®</sup> Pro back-to-back is an outdoor totem, which is suitable for 2 screens with a screen size of 75" | 191 cm. The screens are mounted „back-to-back“. The VESA mount meets the VESA standard up to max. 400 x 400 mm, on request this can be expanded to VESA 400 x 600 mm.

The totem is made from a high-quality steel construction and supplied with 6.4 mm thick, anti-reflective laminated safety glass (VSG). The base offers space for concealed floor wiring and is accessible via a service flap. The installed components are always protected against unauthorized access and vandalism.

The ScreenOut<sup>®</sup> Eco Kiosk series includes active ventilation by high-quality industrial fans and a filter bank as standard to ensure perfect air circulation (air curtain) or filtering.

The front of the outdoor totem is manufactured according to protection standard IP65 / NEMA 4, the back according

to IP54 standard. The cabling and protection is carried out professionally according to VDE specifications (e-check). The outdoor totem is also tested according to EMC requirements and has the DGUV V3 seal of approval.

The interior dimensions offer enough space e. G. for a mini PC, Set Top Box or plug-bar.

Thanks to industrial fans, industrial heating and sensor-based temperature control the outdoor totem is suitable in an ambient temperature range from -25 up to +40° C.

The standard version is intended for permanent installation using a foundation.

Optionally, the totem can be customized in special RAL colours or with a logo.

Cabling according to VDE guidelines

Temperature sensors

Optional individual colour design possible

\*Please note! The supernatant of the threaded rods in the existing foundation must be at least 14 cm. Technical changes reserved.
