ScreenOut® Pro 84 - 86" Landscape   Item no.: 2508

Outdoor protective enclosure with heating and ventilation

The ScreenOut® Pro 84 - 86" Landscape is an outdoor protective enclosure for wall mounting. It is suitable for screens with a size 84 - 86" | 213 - 218 cm. The VESA mount meets the VESA standard and is adapted to the respective hole pattern on the screen.

The enclosure is made of high-quality sheet steel, can be locked with 2 locks and is supplied with 6.4 mm thick, anti-reflective laminated safety glass (LSG). It protects the installed devices against unauthorized access and vandalism.

The ScreenOut® Pro series includes active ventilation by high-quality industrial fans as well as a filter bank to ensure perfect air circulation (Air Curtain) and ensure efficacious filtering.

The front of the outdoor protective enclosure is manufactured according to protection standard IP65 / NEMA 4, the back according to IP54 standard. The cabling and electrical protection is carried out professionally according to VDE specifications (e-check).
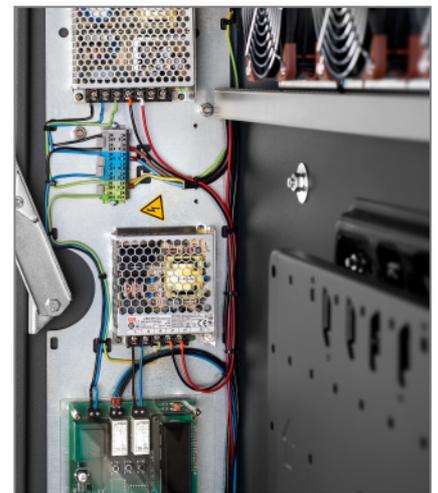

The protective enclosure is also tested according to EMC requirements and has the DGUV V3 test seal.

The front can be opened and securely fixed by using a stable mechanism. The interior dimensions offer enough space for a mini PC or a plugbar.

Thanks to industrial fans, industrial heating and a sensor-supported temperature control it is possible to use the enclosures in an ambient temperature range from -25 up to + 40°C.

All materials required for wall mounting are included (wall mounting set / mounting template).

Optionally, the ScreenOut® Pro 84 - 86" Landscape can be customized in special RAL colours or with a logo.

Cabling according to VDE guidelines
