

ScreenOut[®] Eco Kiosk M Landscape

Item no.: 2527

Outdoor totem with heating and ventilation

The ScreenOut[®] Eco Kiosk M Landscape is an outdoor totem. It is suitable for screens with a size of 46 up to 49" | 117 - 124 cm. The VESA mount meets the VESA standard and is adapted to the respective hole pattern on the screen.

The totem is made from a high-quality steel construction, is lockable and supplied with 6.4 mm thick, anti-reflective laminated safety glass (VSG). The base offers space for concealed floor wiring. The installed components are always protected against unauthorized access and vandalism.

The ScreenOut[®] Eco Kiosk series includes active ventilation by high-quality industrial fans and a filter bank as standard to ensure perfect air circulation (air curtain) or filtering.

The front of the outdoor totem is manufactured according to protection standard IP65 / NEMA 4, the back according to IP54 standard. The cabling and protection is carried out pro-

fessionally according to VDE specifications (e-check). The outdoor totem is also tested according to EMC requirements and has the DGUV V3 seal of approval.

The front can be opened. Full service access is also provided during operation thanks to the pull-out bracket. The interior dimensions also offer enough space e. G. for a mini PC, Set Top Box or plug-bar.

Thanks to industrial fans, industrial heating and double sensor-based temperature control the outdoor totem is suitable in an ambient temperature range from -25° C to +40° C.

The standard version is intended for permanent installation using a foundation*.

Optionally, the steel can be customized in special RAL colors or with a logo.

Cabling according to VDE guidelines

Temperature sensors

optimal service access

*Please note! The supernatant of the threaded rods in the existing foundation must be at least 14 cm.
