CON-Line® Big W Lift Cisco Webex Board Pro 55"
Media column, floor-wall mounting, electrically height adjustable

Item no.: 2785

The CON-Line® Big W Lift Cisco Webex Board Pro 55" is a display specific optimised media column for floor-wall mounting with an integrated lift. Due to its compact design, it can be placed almost anywhere.

The hole pattern of the lift system is designed and optimised for Cisco's collaboration room systems. The screen is mounted in landscape format.

The electro-motorised height adjustment is controlled via a push button control. It has four memory slots to save individual presets. The lift has a stroke of 500 mm and is equipped with collision protection, which means that the lift stops as soon as resistance is encountered.

Ventilation grilles in the corpus provide sufficient ventilation.

AV accessories are protected behind the front panel with sliding door incl. soft close. The removable AV mounting panel (2 pcs) makes the installation quick and easy.

A retractable security lock on the side of the corpus provide additional security.

Due to the space saving floor-wall mounting not much space is required. Levelling feet mounted underneath the corpus provide levelling if required.

Other colour or decor variants (corpus) are available on request - also as unique piece.
