

HA Cam-Holder

Camera mount

Item no.: 2909

The HA Cam-Holder is a universal camera mount. It can be used with almost every Hagor TV mount system up to a maximum of 75" | 191 cm.

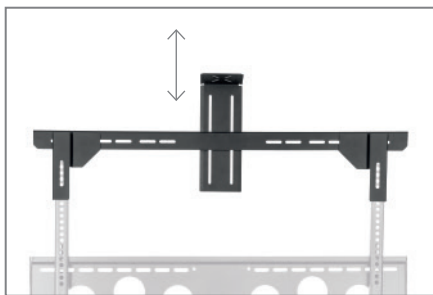

The horizontal distance is adjustable to the VESA standards 400, 600 and 800 mm.

The camera mount is continuously height adjustable (tool needed) and can be installed above or beneath the screen.

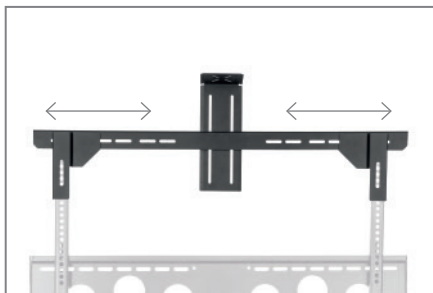

The camera can be fixed precisely in position thanks to the universal oblong hole.

The surface of the camera mount is finished with an impact- and scratch-resistant powder coating in black.

The max. load is 10 kg.

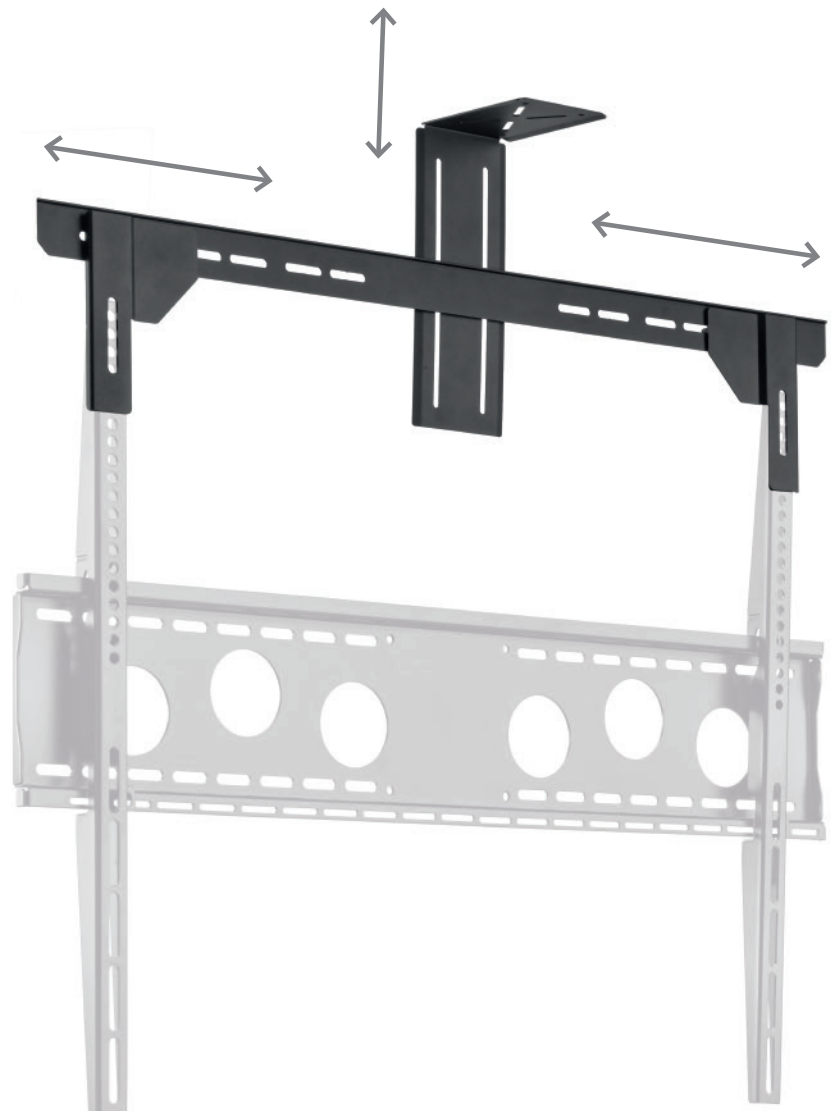

continuously height adjustable (tool needed)

usable up to a width of max. VESA 800

universal oblong hole to fix the camera
