

## CPS Videowall W2x2L 46 - 55"

comPROnents® complete solution

Item no.: 3335

The CPS Videowall W2x2L 46 - 55" is a solution for wall installation. It is suitable for screens with a screen size of 46 to 55" | 117 - 140 cm to create a video wall split 2 × 2 landscape.

The individual display holders offer the possibility of level adjustment in depth and height by separate fine adjustment. In width, the screens can be easily moved and adjusted along the aluminium rails.

The included VESA mounts can be fitted with a maximum of VESA 600 x 400 mm.

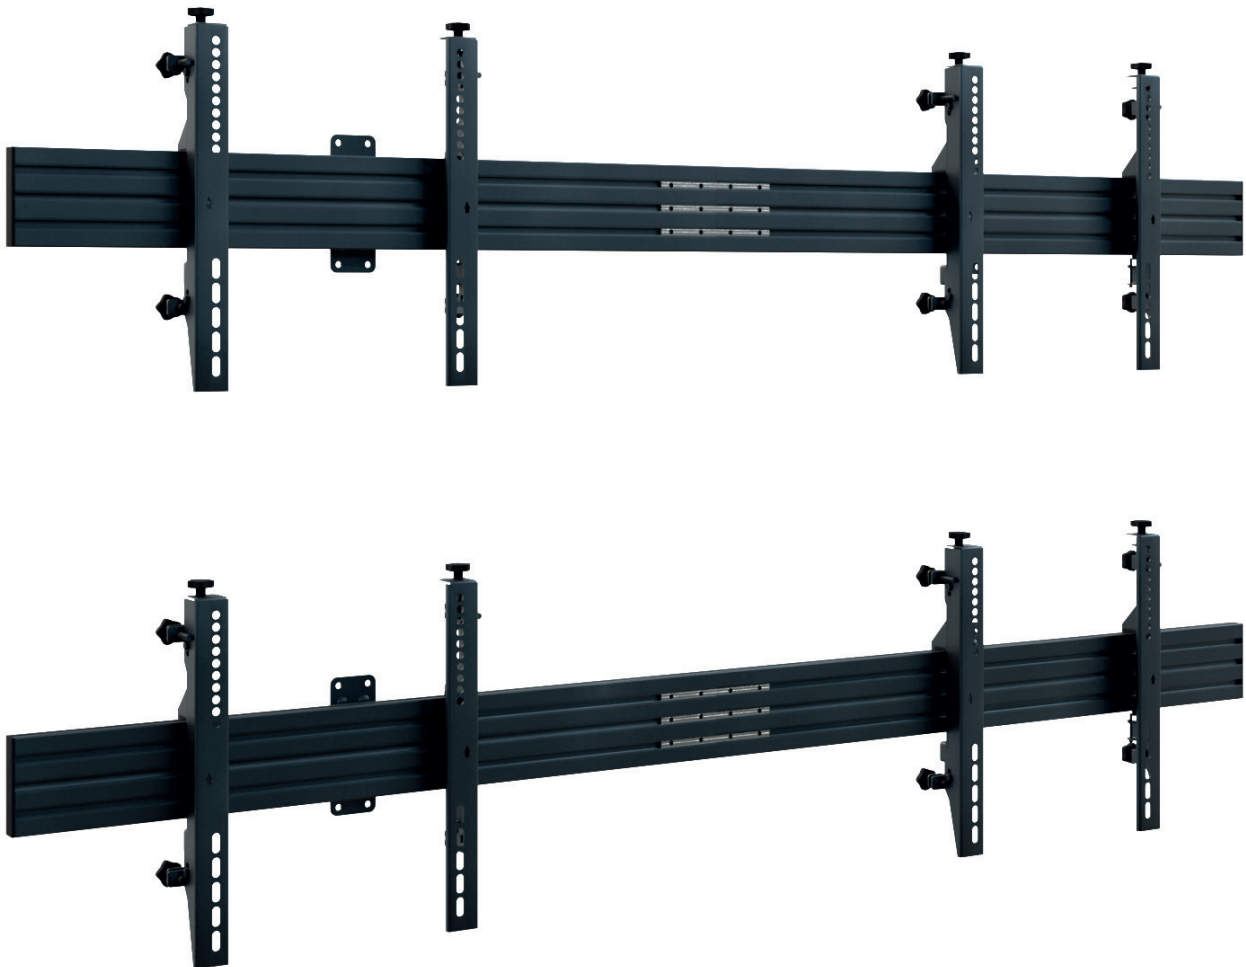

The total width is 2009 mm; if necessary, the rail length can be shortened.

The cabling is organised and securely held together by cable clips along the rails.

The maximum load is 40 kg / per screen.

The surfaces of the CPS Videowall W2x2L 46 - 55" are finished with an impact and scratch resistant powder coating in black.

The complete solutions can be combined and extended with the components of the comPROnents® series without restriction and thus offer further application possibilities.

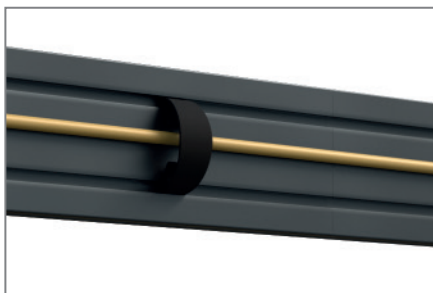

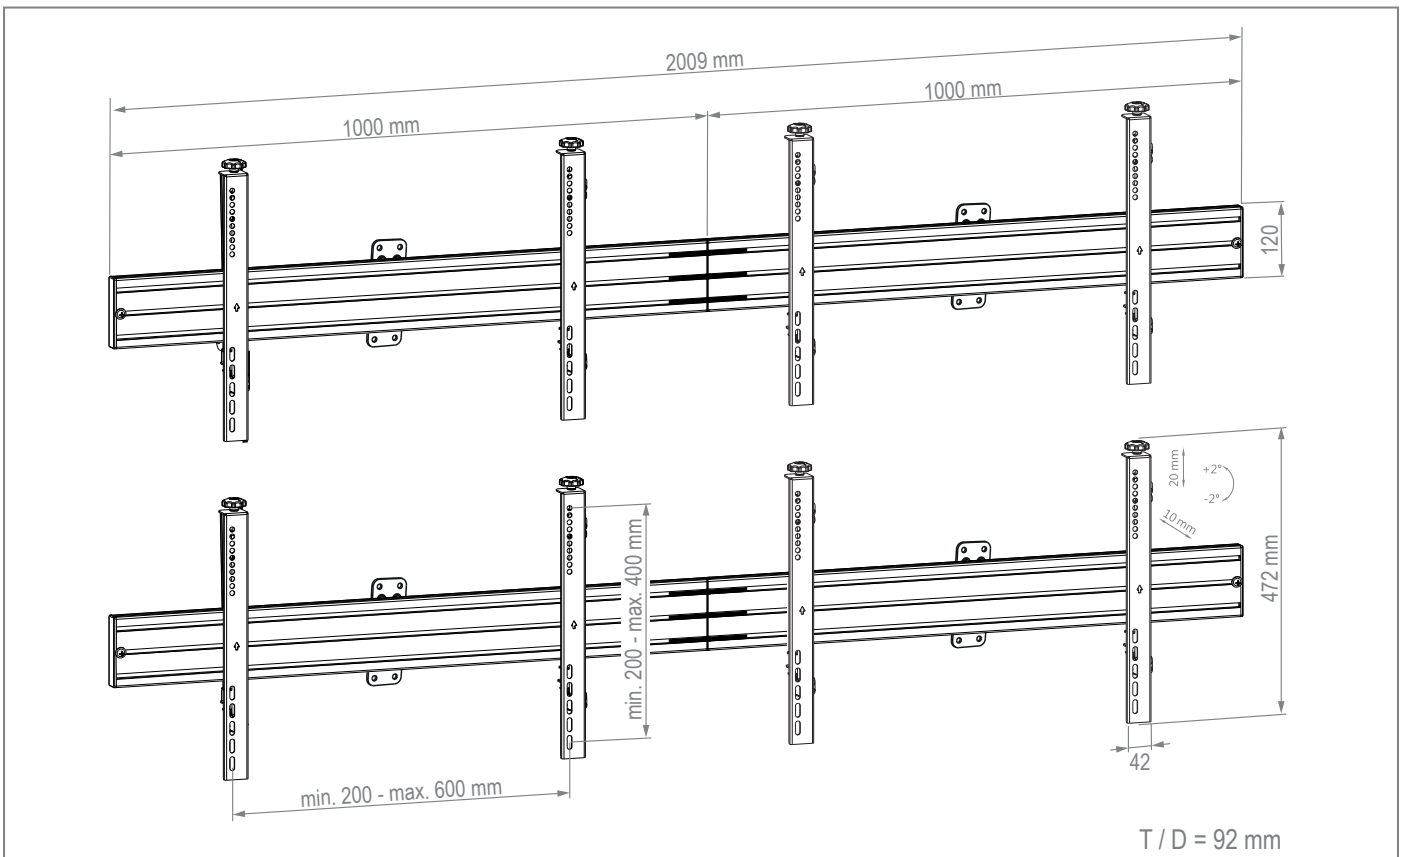

# CPS Videowall W2x2L 46 - 55"

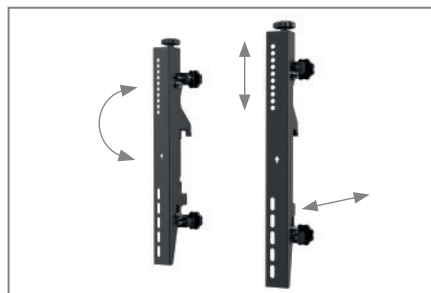

comPROnents® complete solution

Item no.: 3335
