

CPS FLOOR-WALL SINGLE 86 - 110“

comPROnents® complete solution

Item no.: 3348

The CPS FLOOR-WALL SINGLE 86 - 110“ is a stand system for floor-wall mounting. It is suitable for screens with a size from 86 - 110“ | 218 - 279 cm.

The VESA standard is used from min. 200 x 200 mm up to max. 1500 x 800 mm. The fixed VESA arms can be optionally secured with a padlock.

Due to the space-saving floor-wall mounting, the system does not take up much space and can also be placed close to the wall.

The rails are height adjustable along the pillars and thus offer very flexible mounting options, adapted to the respective situation in the room.

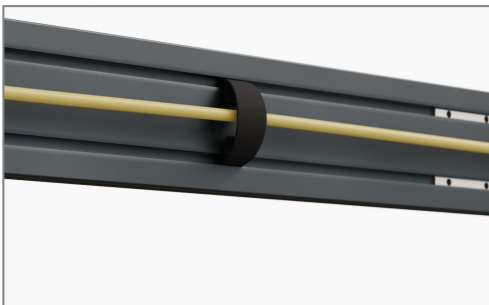

Alu Pillars and Rails can be shortened if necessary.

Cables are routed along the rear side of the rails and pillars by cable clips and thus remain out of sight.

The surfaces of the components are protected by a solvent free, impact and scratch resistant powder coating in black.

The maximum load is 150 kg.

The complete solutions can be combined and extended with the components of the comPROnents® series without restriction and thus offer further application possibilities.

Cable routing by clips along the rails

Space saving floor-wall mounting

Hidden cable routing along the pillars

CPS FLOOR-WALL SINGLE 86 - 110“

comPROnents® complete solution

Item no.: 3348

- 86 - 110“ | 218 - 279 cm
- Landscape
- VESA, min. 200 x 200 mm - max. 1500 x 800 mm
- Space-saving floor-wall mounting
