

HP Twin Lift FW-DW

Item no.: 8258

height adjustable lift system for floor-to-wall installation

The HP Twin Lift FW-DW is a height adjustable lift system for floor-to-wall installation with a dual mount for two screens from 46" to 65" | 117 - 165 cm side-by-side.

The screen mount includes the VESA standard up to max. 600 x 400 mm, for 65" screens max. 400 x 400 mm. The screens are mounted in landscape orientation.

The height of the screens can be adjusted electro-motorized by a wired remote control. The stroke of 980 mm makes it possible to adjust the screen height optimally for standing and seated viewers as well.

The lift system also has a collision protection, which stops the movement of the screen as soon as resistance is encountered, thus preventing damage.

Thanks to the floor-to-wall installation, the lift can be positioned directly on the wall and takes up little space. The required footprint is W 825 x 289 mm.

The HP Twin Lift FW-DW has an integrated media cabinet, which is lockable and reliably protects the AV equipment stored there from unauthorised access.

The maximum load is 120 kg (2x 60 kg).

Cable management is neatly organised via a flexible cable drag chain.

A height adjustable camera holder is already included in the scope of delivery and can be used optionally.

As an optional accessory, the HP Twin Lift - Laptop Holder White | Item no.: 8914 is available.

HP Twin Lift FW-DW

height adjustable lift system for floor-to-wall installation

Item no.: 8258

- 2 displays side-by-side, 46 - 65" | 117 - 165 cm
- Incl. VESA mount up to max. 600 x 400 mm*
- Safety catch
- Installation in landscape orientation
- Electro-motorized height adjustment
- Height adjustable - min. 772 up to max. 1852 mm (approx. center of screen)
- 980 mm stroke
