

WH 120 T - HD

Item no.: 8406

Tiltable wall mount (heavy duty)

WH 120 T - HD is a tiltable wall mount for flat screens from 75 to 130" / 191 - 330 cm, which can be used in landscape orientation.

In addition to the standard attachment up to max. VESA 1200 x 900 mm the WH 120 T - HD also offers the 125 hole pattern for optional adaptation to HAGOR stand or ceiling systems.

The wall mount is characterized above all by the fact that it is extremely sturdy and, with a maximum load of 125 kg, particularly suitable for very heavy screens.

The holder is impact and scratch resistant powder-coated, black and saves a lot of space due to the small wall distance of just 90 mm.

An integrated bubble level ensures easy installation. In order to be able to set the optimal height, a height compensation of up to 10 mm is possible. The inclination can be flexibly adjusted between -10° and $+10^{\circ}$.

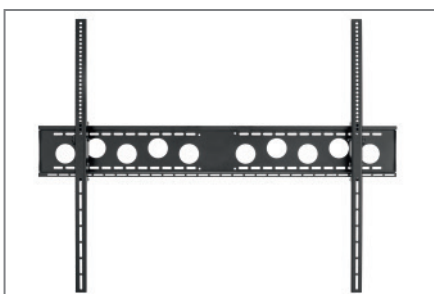

The bracket can be secured against theft with the supplied padlock.

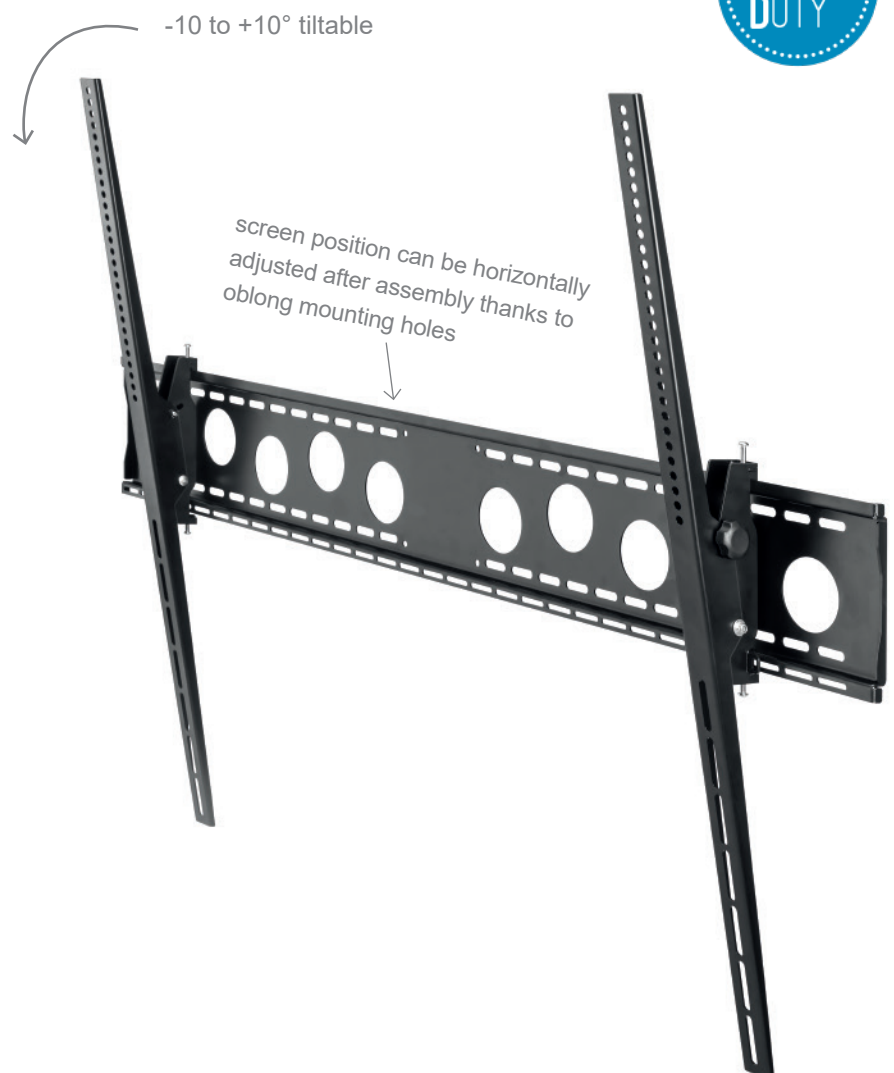

incl. optionally usable lock

incl. height compensation up to 10 mm

VESA 1200 x 900 mm max.
