

PLD Small Single Ceiling Mount

Item no.: 8600

The ceiling mount PLD Small Single is suitable for single screens with a screen diagonal of 24 - 32" | 61 - 81 cm.

The screen can electively be mounted in landscape or portrait format. The VESA standards 100 x 100 to 200 x 200 mm are supported.

Thanks to the included tilt module, the mount can also be used on ceilings with an incline, 0 - 90° are possible here.

The VESA mount can be tilted continuously from -5 to +15° and can also be swiveled ±30°.

The variable ceiling extension can be telescoped and thus allows a ceiling distance between 920 - 3000 mm (centre of screen).

Thanks to a clever access system, the cabling disappears inside the mount.

The surface of the ceiling mount is finished with an impact- and scratch- resistant powder coating in black.

The max. load is 50 kg.

tilting module, continuous, 0 - 90°

VESA 100 x 100, 200 x 100 und 200 x 200 mm

telescopic up to max. 3000 mm

PLD Small Single Ceiling Mount
