

## WH OHF series

### Wall mounts for Samsung OHF series

The outdoor screens of the Samsung OHF series were developed for outdoor use. Thanks to automatic brightness sensors, the displays adapt to the lighting conditions and always offer the viewer an optimal view of the content.

The wall mounting systems of the WH OHF series were primarily developed for this special type of screens. The specific mounting hole pattern of this wall mount has been adapted and optimized for the 46", 55", 75" and 85" version of the outdoor monitor.

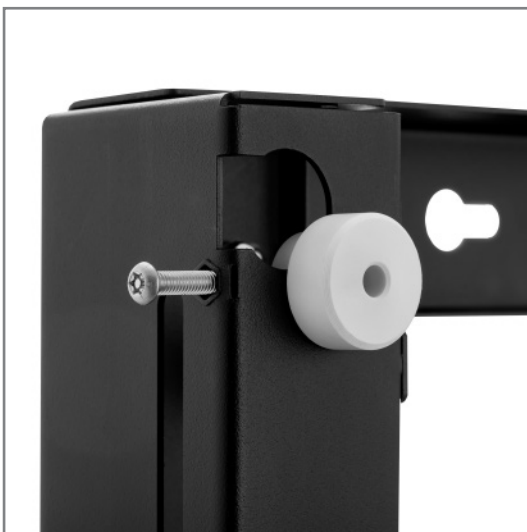

A hang out protection via theft-resistant screw (on the back) ensures the necessary security. The required Resitorx tool is already included.

The surface of the wall mount, which is made of stainless steel, is black as standard and finished with a corrosion-resistant plastic powder-coating.

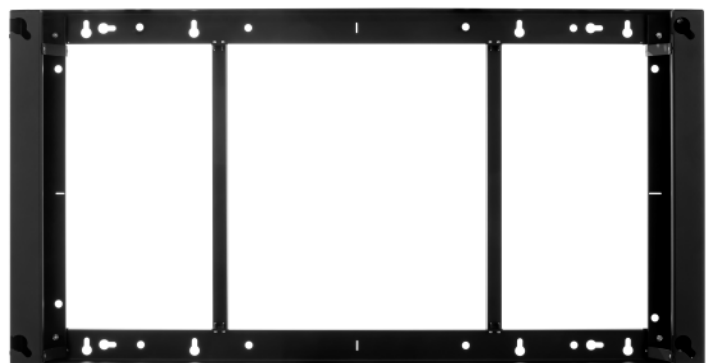

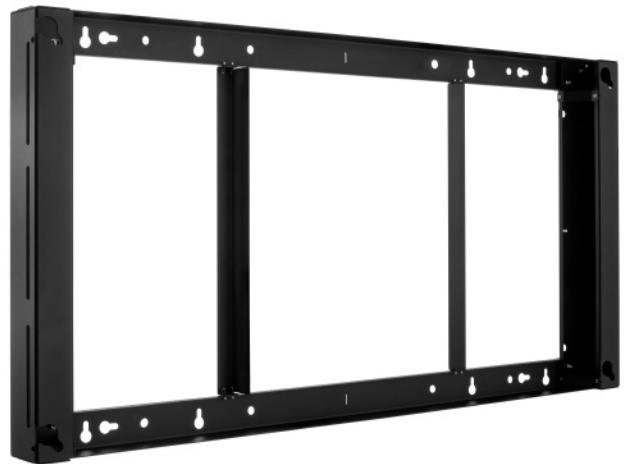

The screen can be mounted in landscape or portrait orientation, depending on the bracket model - please note the details.
