

established in 1996

The comPROnents® series is full of clever and well thought-out detailed solutions, which simplify the installation. All components are made of high quality manufactured aluminum or steel which brings stability and modularity on a new level.

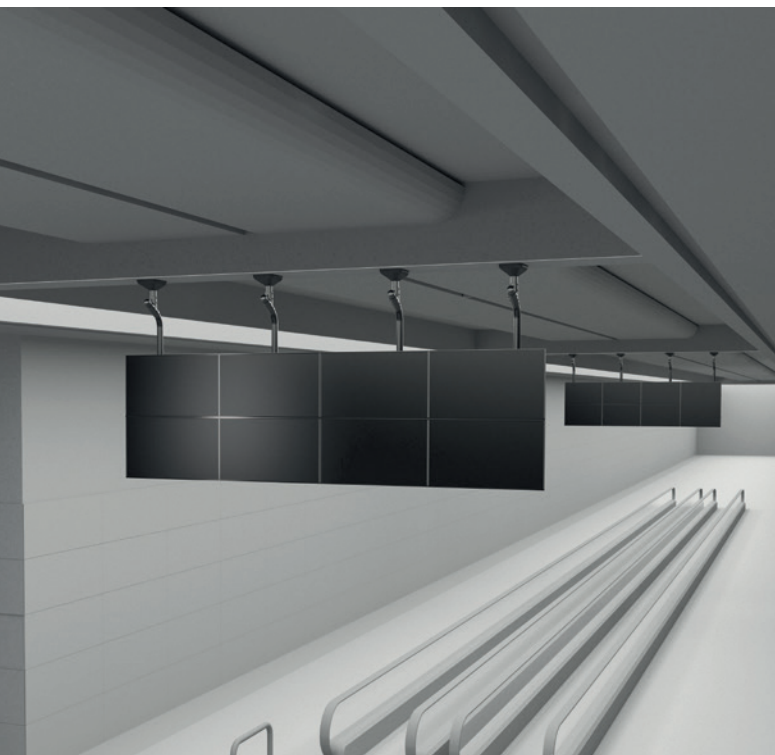

## THE MODULAR SOLUTION for digital signage

Modular solutions save time and money by offering designers and installers the ultimate in versatility.

HAGOR Products offers components that can be configured as ceiling mounts, stand systems or wall solutions.

The comPROnents® series offers endless possibilities for a wide range of applications - including retail, broadcast, education, transportation, and more!

With the comPROnents® series, HAGOR has created a smart solution to generate almost any desired configuration for screens and LED solutions with just a few modular components.

All components are made of high-quality aluminum or steel and are designed in a way that everything fits together perfectly and your installations can be carried out as quickly as possible.

Discover solutions for wall, ceiling or floor mounting, for example, that can be easily combined in order to be able to generate individual installation options, such as menu boards or video wall situations, with great flexibility.

With the comPROnents® series, in connection with your digital signage content, you can create optical highlights that immediately become an eye-catcher for every target group.

With the "WOW-Effect" you will attract attention to new products, promotional content or important information.

Put together your own individual solution and get started right away. Thanks to the effortless assembly technology, your spectacular digital signage content will become the highlight you deserve, on a low budget.

Our goal is to consistently improve and develop digital signage products that increase installation flexibility and at the same time increase sales and profits for our customers.

## comPROnents® Series

### Modular setup - unlimited possibilities

The following scheme gives an overview of the components required for a ceiling installation.

1

#### **RAIL ADAPTER**

Connects the aluminium rails with the selected poles. Optionally available as a single or back-to-back solution.

2

#### **VESA ADAPTER ARME**

Choose whether you prefer a fixed, tiltable or finely adjustable solution for the VESA arms.

3

#### **CEILING FIXTURE**

4

#### **POLES**

Choose between standard poles or poles with weight compensation function.

5

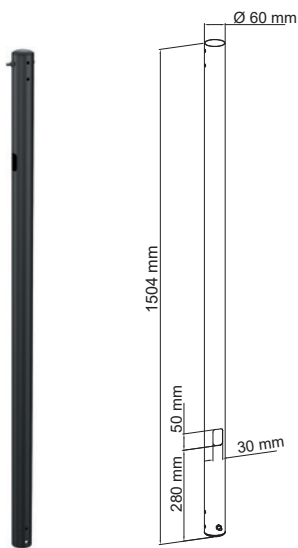

#### **ALUMINIUM RAILS**

Choose between three different lengths according to your individual needs. A connection with each other is guaranteed by the connectors included in the scope of delivery.

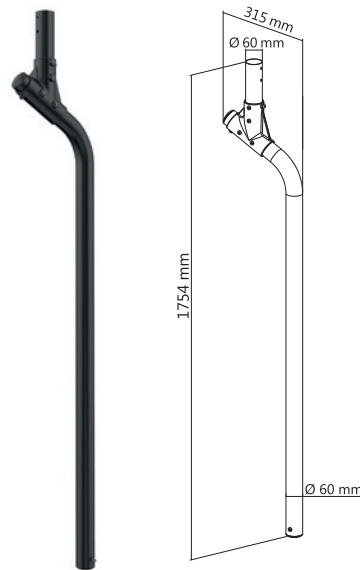

# CEILING MOUNTS - Single / Multiple / Menu Board

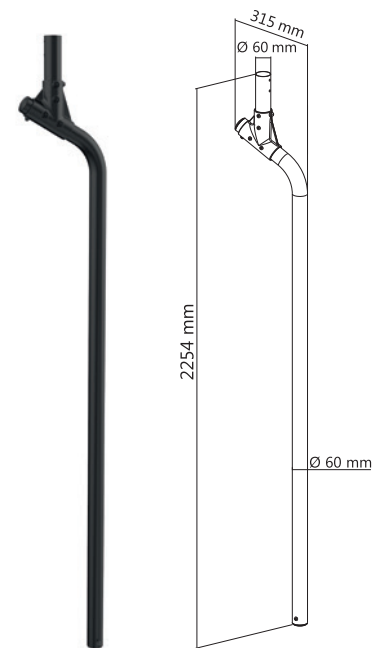

## POLES

CPS - POLE 1500 mm  
Ø 60 mm  
Item no.: 3214

CPS - POLE 1750 mm  
FOR MULTISCREEN INSTALLATION  
Item no.: 3215

CPS - POLE 2250 mm  
FOR MULTISCREEN INSTALLATION  
Item no.: 3216

## INFO

### Specific & Professional

The HAGOR comPROnents® series offers the right components for almost every application. No matter if it is a single or dual application or a video wall - the individual parts can be optimally combined to create the required assembly solution.

Creating multi-screen solutions with straight poles on top of each other (as is often offered in the market) can lead to security problems as the solutions tilt over time, resulting in misalignment of the information displayed.

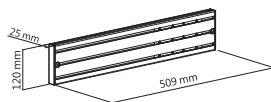

Using poles with a weight compensation function ensures long-term alignment and safety of the system.

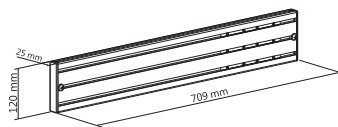

Straight poles are ideal for a single row of displays.

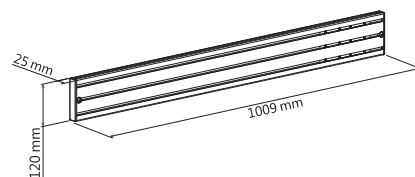

## RAILS

CPS - ALU RAIL 500 mm  
Item no.: 3210

CPS - ALU RAIL 700 mm  
Item no.: 3211

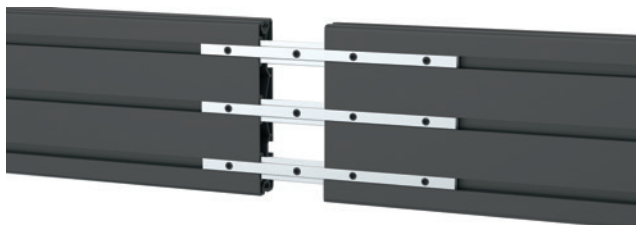

CPS - ALU RAIL 1000 mm  
Item no.: 3212

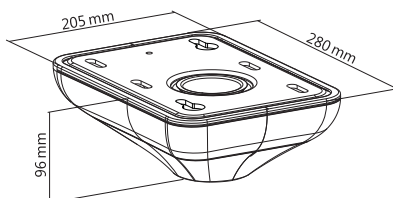

## INFO

### Connection of the aluminium rails

The aluminum rail connectors included in the scope of delivery create endless configurations for almost any environment. The stability among each other remains completely intact and does not affect the load capacity or safety in any way.

## CEILING PLATE

CPS - CEILING PLATE  
WITH COVER  
Item no.: 3217

## INFO

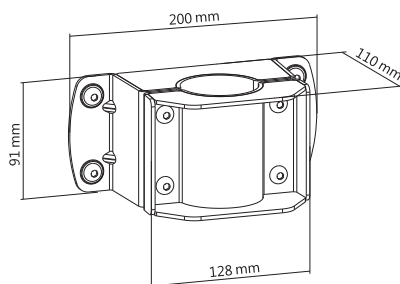

### Ceiling mount module

The stable ceiling plate provides a solid foundation for the poles and contains keyhole slots that allow them to be pushed on and screwed in quickly. The cover included in the scope of delivery rounds off the system and creates an elegant finish!

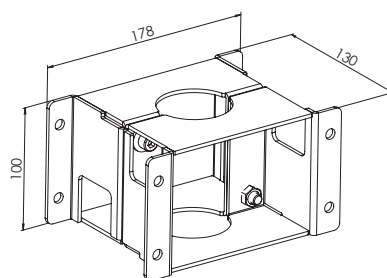

# CEILING MOUNTS - Single / Multiple / Menu Board

## RAIL ADAPTER SINGLE

CPS - RAIL ADAPTER FOR  
POLE-SERIES  
Item no.: 3218

## RAIL ADAPTER DUAL

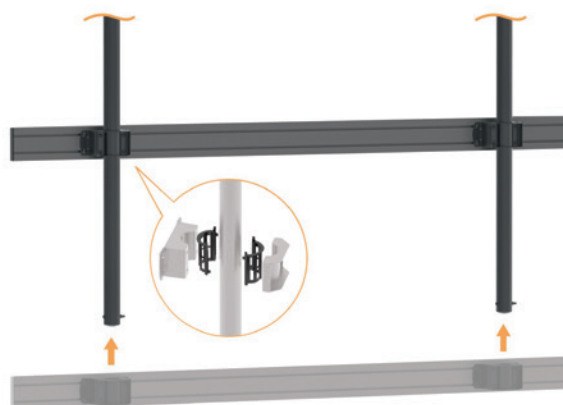

CPS - BACK TO BACK RAIL  
ADAPTER FOR POLE-SERIES  
Item no.: 3226

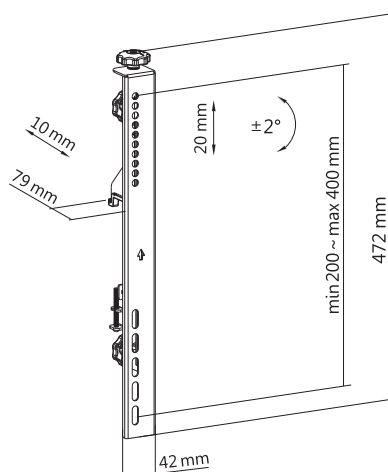

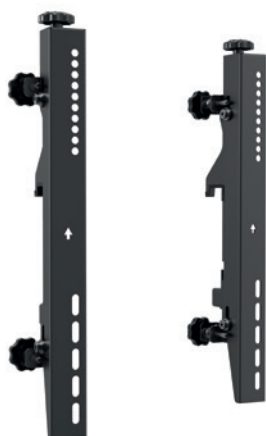

## INFO

### Possible installations on the POLE series:

The high-quality adapters for the poles enable the aluminum rails to be mounted on one or both sides. This means that back-to-back installations can also be created very easily in order to create a double-sided advertising-effective digital signage presentation.

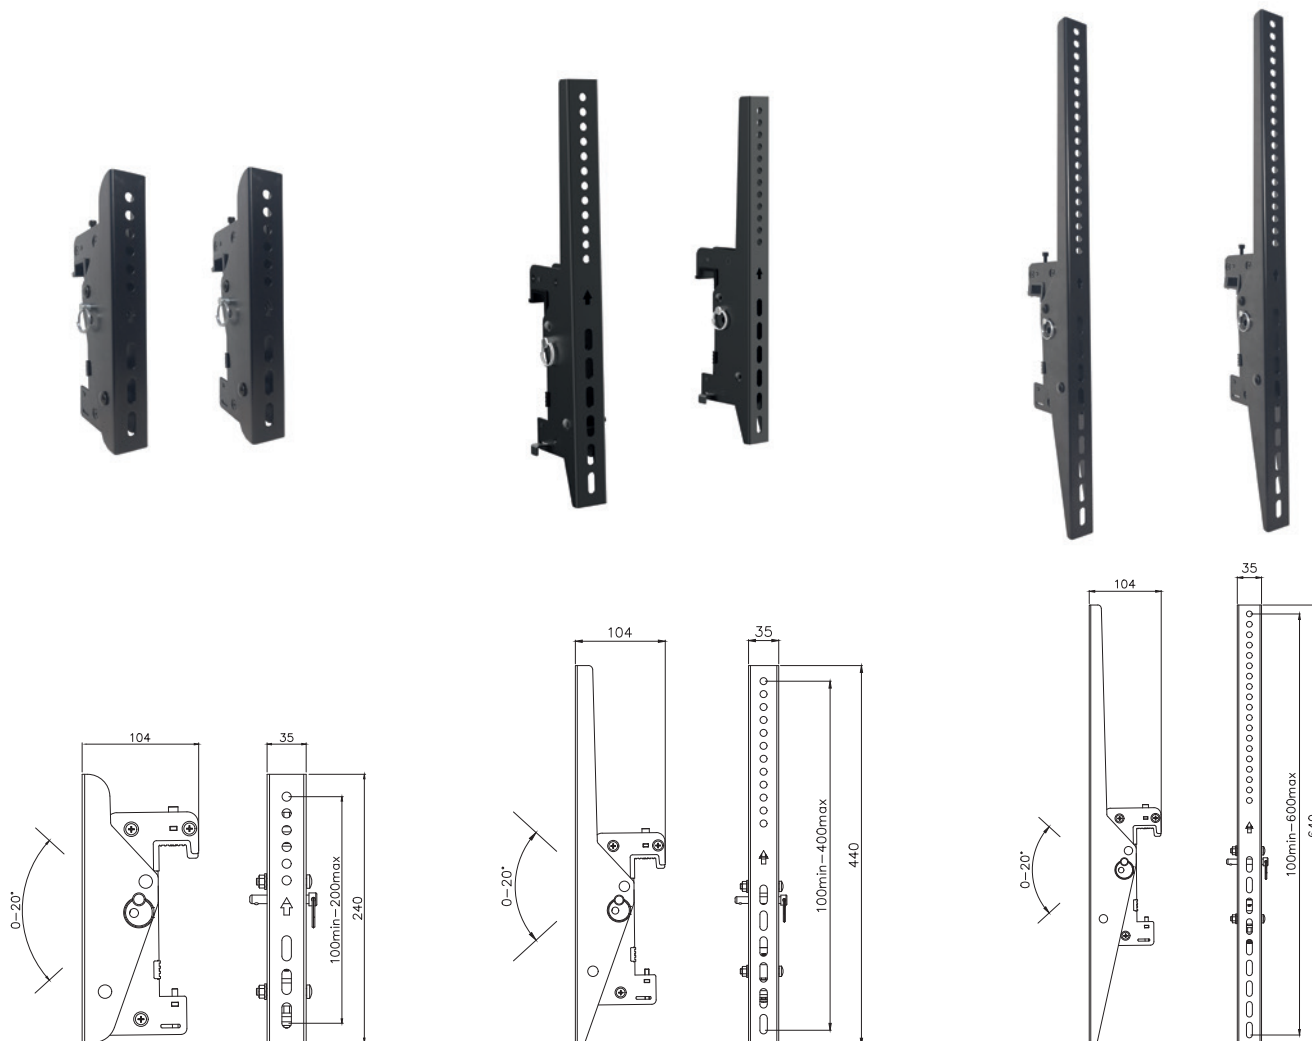

## VESA ADAPTER ARMS | MICRO ADJUSTABLE

CPS - MICROADJUSTABLE  
ARMS VESA 400  
Item no.: 3201

CPS - TILT ARMS VESA 200  
Item no.: 3219

Item no.: 3220

CPS - TILT ARMS VESA 600  
Item no.: 3221

- Optional secure part available | **SECURE PART FOR TILT ARMS-SERIES** | Item-No.: 3227 (see page 35) -

## INFO

### Perfect fine adjustment

Each mount offers fine adjustment in height to ensure that the screens are perfectly aligned, resulting in a nearly seamless appearance.

Our tiltable VESA arms (figure 1) enable comfortable viewing - perfect for menu boards and other display installations that are installed high.

The micro adjustable VESA arms (figure 2) are perfect for video wall or other multiple solutions due to the additional depth adjustment.

**Installation example:**  
Free standing video wall  
stand system 3x3  
landscape

incl. cable management

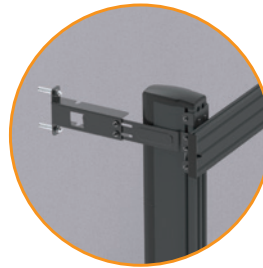

## FLOOR TO WALL ADAPTER

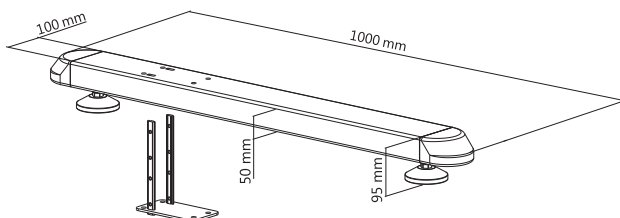

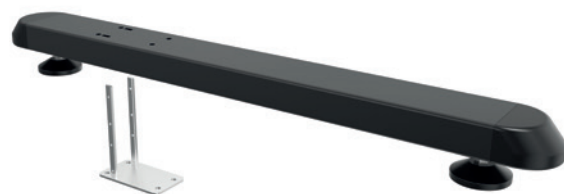

CPS - FLOOR TO  
WALL ADAPTER  
(BOLT-DOWN)  
Item no.: 3205

## INFO

The set for floor to wall mounting enables the aluminium pillars to be attached to an existing wall in a practical and space saving manner in a few simple steps. Due to the ingenious wall angle, take measure on the floor is also not a problem, as the depth can be adjusted later. Furthermore, we enable perfect access to your cable management.

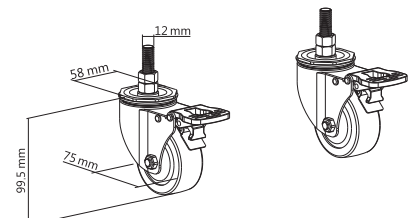

## SINGLE LEVELING FEET

CPS - SINGLE  
LEVELING FEET  
Item no.: 3203

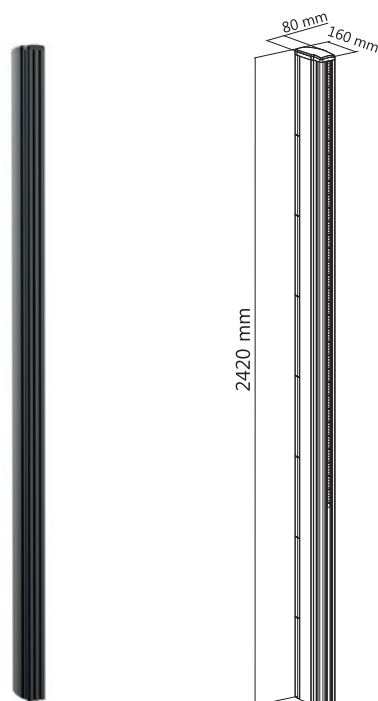

## LOCKING CASTERS

CPS - LOCKING CASTER SET  
FOR LEVELING FEET-SERIES  
Item no.: 3208

# FLOOR-TO-WALL MOUNTS & VIDEO WALL STAND SYSTEMS

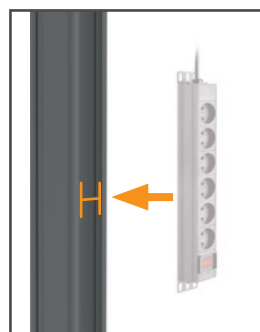

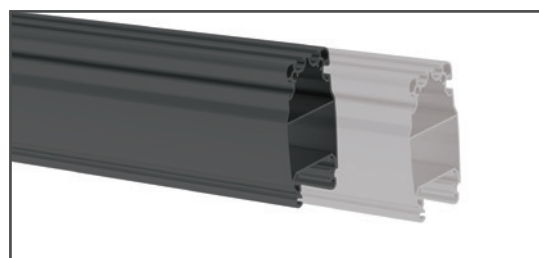

## ALU PILLAR

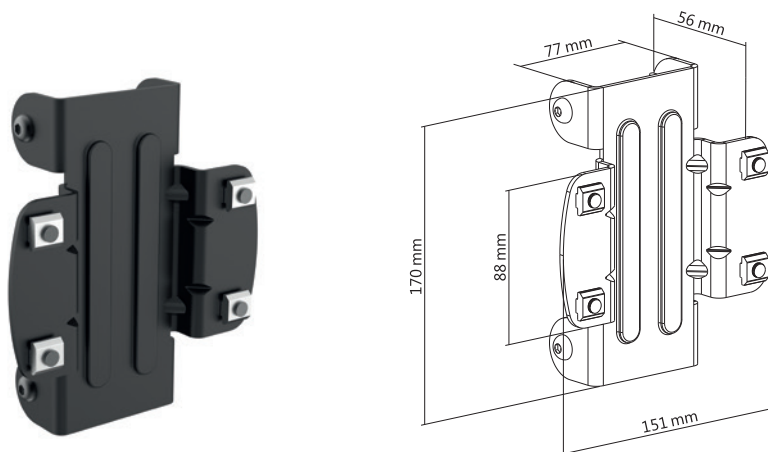

CPS - ALU PILLAR 2400 mm  
(CUTTABLE TO DESIRED LENGTH)  
Item no.: 3207

## INFO

The high-quality aluminium columns impress with their light weight paired with maximum stability. On the back, the cables can be routed almost invisibly in the profile and, if necessary, can be run in different positions. Upon request, the columns are also available in the dimensions you require.

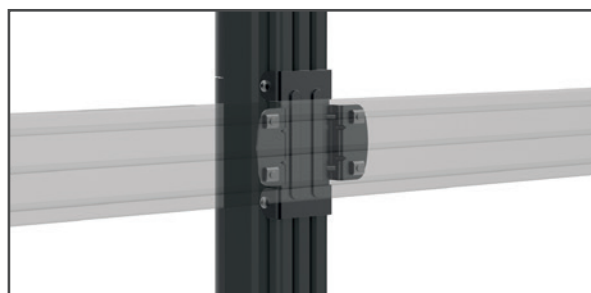

## RAIL ADAPTER FOR ALU PILLAR

CPS - RAIL ADAPTER  
FOR ALU PILLAR  
Item no.: 3209

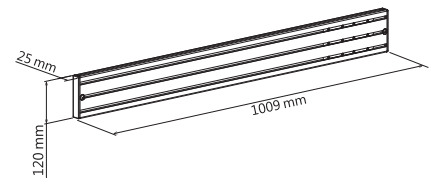

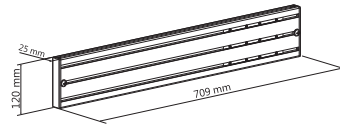

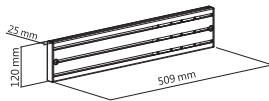

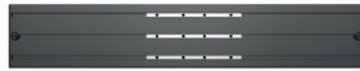

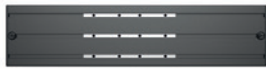

## INFO

The high-quality adapters for the aluminium pillars enable the aluminium rails to be installed quickly and easily. Thanks to the ingenious profile, you can place a large number of these adapters on top of each other and thus also enable multiple screens to be installed on top of each other. There are no limits to you.

### BrackIT® Rotate

Display cart with lock free rotating mechanism

- freely rotatable by 90°
- locks in the respective end position
- can only be used with a centered hole pattern
- landscape to portrait format and vice versa
- little effort needed thanks to spring mechanism
- release from end position without locking
- tilting possible with tools (0° / -2,5° / -5°)
- internal cable routing
- set of castors, 2 lock-type castors
- including optionally usable shelf, selectively mountable in 2 positions

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Foot print	Height	Colour
8400	BrackIT Rotate	43 - 65"   109 - 165 cm	200 x 200   300 x 300   400 x 400 mm	45 kg	W 1019 x T 770 mm	1738 mm	■

### BrackIT® Stand low tilt

Display cart

- installation in landscape format
- screen continuously tiltable with tools from 0 to 90° by means of a rotary handle on the side
- TV holding fixture lockable on request
- castors with lock-type brake
- incl. cable clips on the rear side for a clean appearance
- 493 mm height (centre of screen), when using a screen with a centered hole pattern
- optional adapter plates are available to compensate decentralized VESA hole patterns for example for the Samsung QB-, QH-, QM-series 32 - 43" (Item no.: 2289) | 49 - 65" (Item no.: 2280)

Item no.:	Item name	recommended screen size	VESA	Height (centre of screen)	Load (max.)	Colour
8225	BrackIT Stand low tilt	32 - 55"   81 - 140 cm	max. 400 x 400 mm	493 mm *	30 kg	■

- \* The stated height only applies if the hole pattern is centered. | Compensating adapter plates are required for decentralized VESA hole patterns. | See page 91. -

## BrackIT® Stand Dual

Display cart

- for 2 screens "side-by-side"
- TV holding fixture height adjustable along the column
- TV holding fixture 0 to 15° tiltable
- dimensions (incl. VESA rail):  
H 2100 x W 1700 x D 1000 mm
- cable management by cable clips along the column and aluminium rails
- mobile, thanks to a castor set with lock-type brake

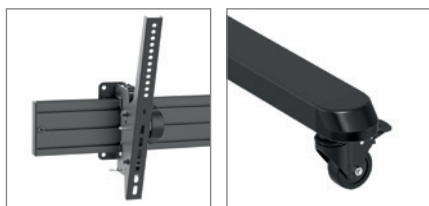

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour

8405	BL Superslim Tilt 600	55 - 75"   140 - 191 cm	max. 600 x 400 mm	35 kg	■

### WH 50 T - HD

Tiltable wall mount (heavy duty)

- especially for portrait installation
- distance to wall: 65 mm
- $\pm 10^\circ$  continuously tiltable
- detachable spirit level
- screen position can be horizontally adjusted after assembly thanks to oblong mounting holes
- incl. height compensation up to 10 mm
- incl. optionally usable lock

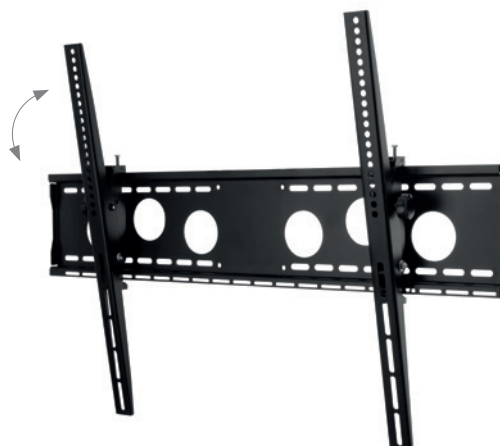

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
1792	WH 50 T - HD	32 - 75"   81 - 191 cm	max. 400 x 600 mm	125 kg	■
1469	VESA Adapter Stripes 800	-	max. 800 mm	125 kg	■

### WH 85 T - HD

Tiltable wall mount (heavy duty)

- distance to wall: 65 mm
- $\pm 10^\circ$  continuously tiltable
- detachable spirit level
- screen position can be horizontally adjusted after assembly thanks to oblong mounting holes
- incl. height compensation up to 10 mm
- incl. optionally usable lock

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
1793	WH 85 T - HD	55 - 110"   140 - 279 cm	max. 800 x 600 mm	125 kg	■

### WH 120 T - HD

Tiltable wall mount (heavy duty)

- screen can be installed in landscape format
- distance to wall: 90 mm
- $\pm 10^\circ$  continuously tiltable
- incl. height compensation up to 10 mm
- screen position can be horizontally adjusted after assembly thanks to oblong mounting holes
- incl. optionally usable lock

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
8406	WH 120 T - HD	75 - 130"   191 - 330 cm	max. 1200 x 900 mm	125 kg	■

### BrackIT® L

Full motion wall mount

- screen can be installed in landscape or portrait format
- no tools needed to set tilt angle, can be locked by means of a rotary handle on the side
- incl. cable clips for decent cable management
- distance to wall: 63 min. to 703 mm max.
- -2 to +12° continuously tiltable
- ± 90° swivelling, depending on screen size
- ± 5° subsequent levelling

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
1985	BrackIT L	32 - 55"   81 - 140 cm	max. 600 x 400 mm	30 kg	■

### BrackIT® L HD

Full motion wall mount

- screen can be installed in landscape or portrait format
- no tools needed to set tilt angle, can be locked by means of a rotary handle on the side
- incl. cable clips for decent cable management
- distance to wall: 60 min. to 500 mm max.
- -2 to +12° continuously tiltable
- ± 45° swivelling, depending on screen size
- ± 5° subsequent levelling

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
1986	BrackIT L HD	32 - 55"   81 - 140 cm	max. 600 x 400 mm	40 kg	■

## BrackIT® XL HD

Full motion wall mount

- screen installation in landscape or portrait format
- no tools needed to set tilt angle, can be locked by means of a rotary handle on the side
- incl. cable clips for decent cable management
- distance to wall: 60 min. to 500 mm max.
- -2 to +12° continuously tiltable
- 45° swivelling, depending on screen size
- ± 5° subsequent levelling

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
1987	BrackIT XL HD	55 - 75"   140 - 191 cm	max. 800 x 600 mm	80 kg	■

## BrackIT® XXL HD

Full motion wall mount

- screen installation in landscape or portrait format
- no tools needed to set tilt angle, can be locked by means of a rotary handle on the side
- incl. cable clips for decent cable management
- distance to wall: 68 min. to 508 mm max.
- -2 to +12° continuously tiltable
- 45° swivelling, depending on screen size
- ± 5° subsequent levelling

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
2292	BrackIT XXL HD	65 - 98"   165 - 249 cm	max. 900 x 600 mm	125 kg	■

### BL Full Motion 200 Series

Full motion wall mount

- screen installation in landscape or portrait format
- variable distance to wall
- integrated spirit level
- incl. cable clips for decent cable management
- -5 to +10° tiltable

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Wall distance	Swivelling range	Colour
8417	BL Full Motion 200 - I	15 - 32"   38 - 81 cm	max. 200 x 200 mm	25 kg	48 mm	± 15°	■
8418	BL Full Motion 200 - II	15 - 32"   38 - 81 cm	max. 200 x 200 mm	25 kg	50 - 225 mm	± 45°	■
8419	BL Full Motion 200 - III	15 - 32"   38 - 81 cm	max. 200 x 200 mm	25 kg	52 - 342 mm	± 90°	■

### WH Synchron 41

Full motion wall mount

- screen installation in landscape or portrait format
- variable distance to wall possible, continuously extractable from 45 min. to 484 mm max.
- ± 90° max. continuous swivelling range
- no tools needed to set tilt angle -2 / +12°
- incl. cable clips for decent cable management

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
2061-1	WH Synchron 41	32 - 50"   81 - 127 cm	max. 400 x 400 mm	30 kg	■

### WH Synchron 51

Full motion wall mount

- screen installation in landscape or portrait format
- variable distance to wall possible, continuously extractable from 50 min. to 465 mm max.
- ± 45° max. continuous swivelling range
- no tools needed to set tilt angle -2 / +12°
- incl. cable clips for decent cable management

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
2062	WH Synchron 51	40 - 65"   102 - 165 cm	max. 600 x 400 mm	45 kg	■

### WH Turn M

Rotatable universal wall mount

- freely rotatable by 90° - locks in final position
- can only be used with a centered VESA hole pattern
- clicks in place in the respective final position (0 or 90°)
- little effort needed thanks to spring mechanism
- tilting possible (0° / -2,5° / -5°)
- continuous change of screen format with no tools needed
- distance to wall: 67 mm

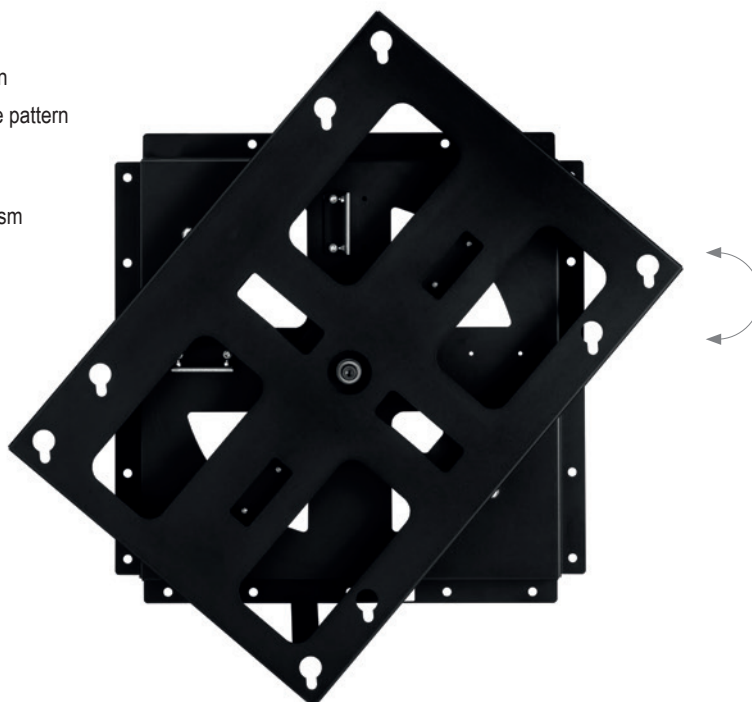

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
5760	WH Turn M	46 - 55"   117 - 140 cm	200 x 200   300 x 300   400 x 400 mm	45 kg	■

### WH Turn L

Rotatable universal wall mount

- freely rotatable by 90° - locks in final position
- can only be used with a centered VESA hole pattern
- continuous change of screen format with no tools needed
- little effort needed thanks to spring mechanism
- distance to wall: 74,5 mm

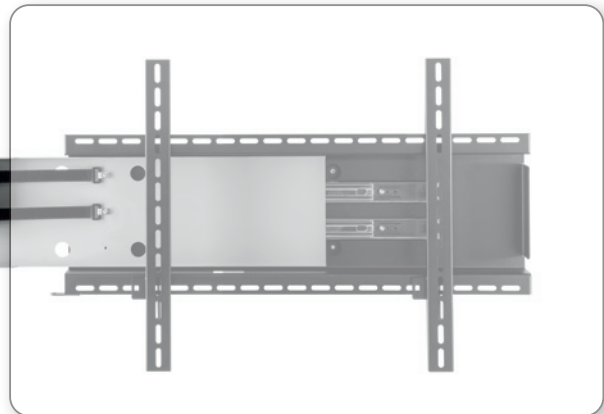

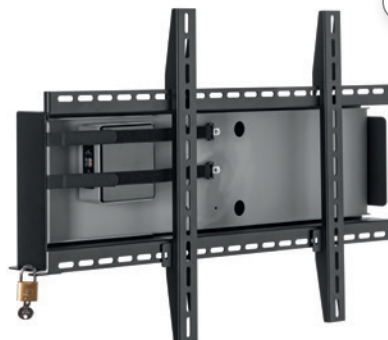

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
5693	WH Turn L	55 - 75"   140 - 191 cm	max. 600 x 400 mm	65 kg	■

### WH 75 FPC

Fixed wall mount with PC compartment

- installation in landscape or portrait format (depending on screen size)
- incl. innovative pull-out mechanism, e.g. for mini PC
- access to e. g. mini PC guaranteed, even during running operation
- incl. locking function for mini PC (adjustable to size)
- incl. lock for the pull-out mechanism for protection against unauthorized access

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Wall distance	Colour
2220	WH 75 FPC	40 - 65"   102 - 165 cm	max. 600 x 400 mm	80 kg	92,5 mm	■

- Available for other screen sizes on request. -

### WH Moto 80 | 160

Electrical wall mounts with height adjustment

- installation in landscape format
- electromotive, continuous height adjustment
- 500 mm travel way
- incl. wired touch control
- dimensions:  
H 1005 x W 1148 x D 127 mm

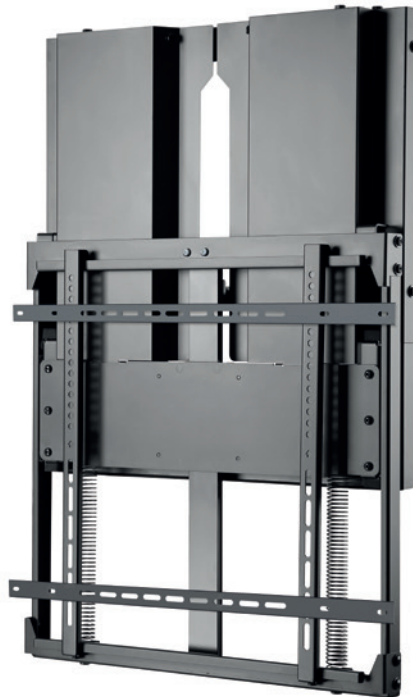

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
8407	WH Moto 80	84 - 110"   213 - 279 cm	max. 900 x 800 mm	80 kg	■
8408	WH Moto 160	84 - 110"   213 - 279 cm	max. 900 x 800 mm	160 kg	■

## HP Counterbalanced Wall

Wall mount with manual height adjustment

- suitable for screens or touchscreens
- installation in landscape format
- manual height adjustment thanks to adjustable to device weight mechanism
- continuous height adjustable - blackboard principle
- very smooth adjustability
- 400 mm travel way
- only 125 mm distance to wall
- screen stays safely in desired height

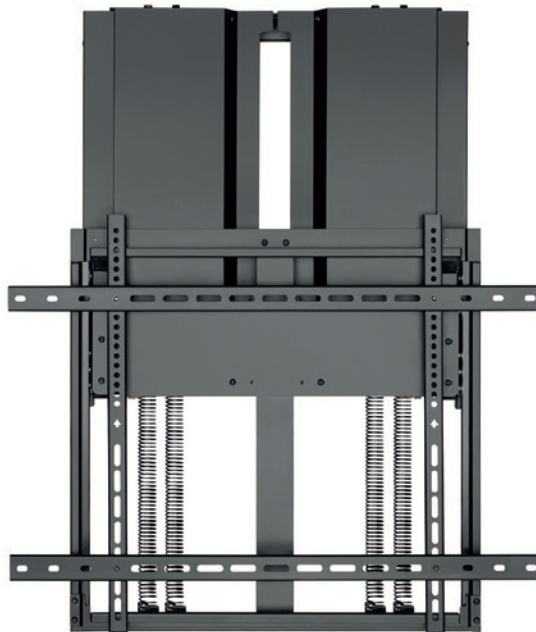

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
8409	HP Counterbalanced Wall	55" - 75"   140 - 191 cm	max. 800 x 400 mm	min. 40 - max. 60 kg, adjustable to device weight	■

## HP Counterbalanced Wall HD

Wall mount with manual height adjustment

- suitable for screens or touchscreens
- installation in landscape format
- manual height adjustment thanks to adjustable to device weight mechanism
- continuous height adjustable - blackboard principle
- very smooth adjustability
- 400 mm travel way
- only 127 mm distance to wall
- screen stays safely in desired height

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
8410	HP Counterbalanced Wall HD	65" - 90"   165 - 229 cm	max. 800 x 600 mm	min. 60 - max. 90 kg, adjustable to device weight	■

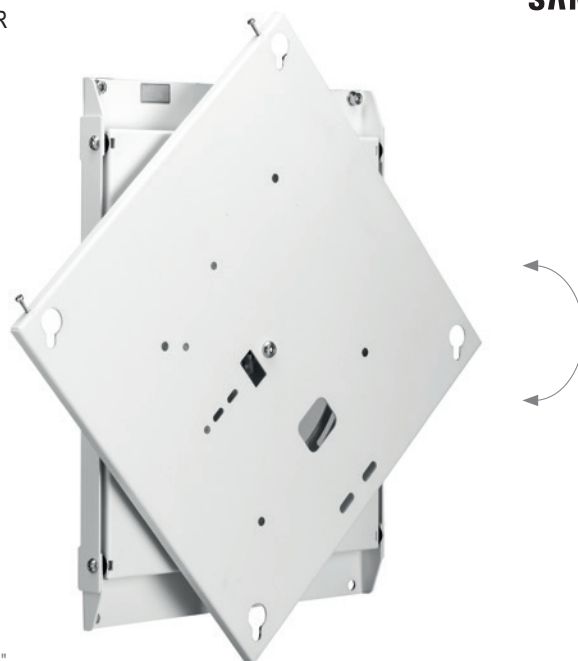

### WH SA Flip

Rotatable and tiltable wall mount display specific for Samsung WM55H/R

**SAMSUNG**

- developed for Samsung WM55H/R (Flip)
- freely rotatable by 90°
- stays securely in the respective final position
- final position release with little effort thanks to spring mechanism
- tilting possible (0° / -2.5° / -5°)
- continuous change of screen position with no tools needed
- distance to wall: 67 mm

incl. Flip Adapter 65"

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
5690	WH SA Flip	Samsung WM55H/R	400 x 400 mm	45 kg	<input type="checkbox"/>
5761	Flip-Adapter 65"	Samsung WM65R	400 x 400 mm	45 kg	<input type="checkbox"/>

- Colour similar to SAMSUNG Flip series -

### ST SA Flip II

Mobile stand system display specific for Samsung Flip

**SAMSUNG**

- freely rotatable by -90°
- landscape to portrait format and vice versa
- little effort needed thanks to spring mechanism
- locks in final position
- release from end position without locking
- tilting possible with tools (0° / -2,5° / -5°)
- internal cable routing
- set of castors, 2 lock-type castors
- including optionally usable shelf

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
5787	ST SA Flip II 55"	Samsung WM55H   Samsung WM55R	400 x 400 mm	45 kg	<input type="checkbox"/>
5788	ST SA Flip II 65"	Samsung WM65R	400 x 400 mm	45 kg	<input type="checkbox"/>

- Colour similar to SAMSUNG Flip series -

## Mobile Lift Pro Light III Flip

Mobile lift system, display specific for Samsung Flip

**SAMSUNG**

- electromotive height adjustment
- operation via wired remote control
- collision prevention - lift stops when there is resistance
- landscape to portrait format and vice versa
- freely rotatable by -90°
- little effort needed thanks to spring mechanism
- locks in final position
- release from end position without locking
- tilting possible with tools (0° / -2,5° / -5°)
- incl. lockable media cabinet
- cable management via cable drag chain
- castors with lock-type brake

## VWH-5 Adapter Stripes VESA 800

### Optional VESA adapter

- extends the VESA standard to  
800 x 500 or 500 x 800 mm
- max. load remains the same

Item no.:	Item name	VESA (max.)	Colour
5769	VWH-5 Adapter Stripes VESA 800	800 x 500 or 500 x 800 mm	■

## VWH-3

Video wall mount

- screen installation in portrait or landscape format
- distance to wall: 98 mm  
incl. fine adjustment by  $\pm 5$  mm
- 8-point levelling
- $\pm 5$  mm fine adjustment of depth
- unlimited video wall configurations
- incl. adapter set for installation of VESA 600 x 400 or 400 x 600 mm

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
1484	VWH-3	42 - 55"   107 - 140 cm	max. 400 x 400 mm   with Adapter 600 x 400 mm	50 kg	■

## VWH-1 Small

Video wall mount

- screen installation in portrait or landscape format
- distance to wall in central position  
95 to 275 mm max.  
incl. fine adjustment by  $\pm 5$  mm
- 6-point levelling
- click-out system for optimal service access
- unlimited video wall configurations

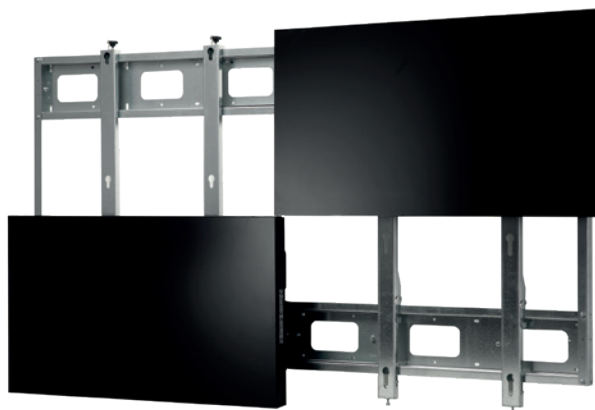

Item no.:	Item name	recommended screen size	VESA	Load (max.)	Colour
1511	VWH-1 Small	32 - 40"   81 - 102 cm	max. 200 x 200 mm	25 kg	■

## VWR frames for 46/47" and 55"

Video wall multiple frame for quick installation

- available for portrait or landscape installation
- wide variety of configurations available
- only 67 mm distance to wall
- depth fine-adjustable up to  $\pm 4$  mm
- height adjustable via manually adjustable knurled thumb screws
- M8-Pins included in delivery, M6-Pins optionally available
- quick installation, cost-effective solution

## VWS Cube

Modular video wall stand system

- for screens from 46 - 65" | 117-165 cm
- setup of system either centred or flush with front edge
- selectable height of bottom edge of screen (depending on screen 8 - 145 cm)
- screen installation in portrait or landscape format
- width indefinitely expandable
- landscape installation up to 7 rows on top of each other (7 for 46", 6 for 55", 5 for 60")
- portrait installation up to 3 rows on top of each
- no tools required for installation with spring bolts
- fine adjustment of screens on 8 points
- standard colour: black - more RAL colours possible
- optional: set of castors incl. lock-type brake
- optional: blind frames (make it possible to encase the entire system. Also available for base, side frames and distance frames (spacer))
- optional: curved adapter (an angle of 30° max. can be generated per standing element)

No tools required for installation with captive screws

Various starting heights can be selected (depending on screen from 8 to 145 cm)

Fine-adjustment for an exact splitwall

Adjustable feet to balance unevenness of floor

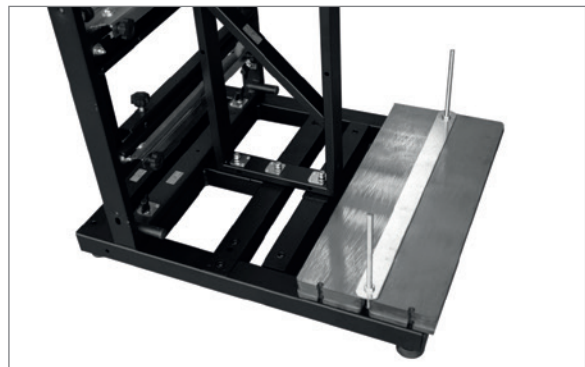

As an option, adapters for a curved setup are available

Portrait or Landscape installation

With blind frame for floor elements and frame construction as an option

Dead weight plates as counterweights make sure that the construction does not tilt over in case of front setup

## ScreenOut® Eco Kiosk M | L

Outdoor totem with heating and ventilation

- incl. pull-out function of screen for optimal service access
- 6.4 mm thick, antireflective laminated safety glass (LSG)
- manufactured according to:  
IP 65 / NEMA 4 (front side) and IP 54 (back side)
- totem is lockable, protection from unauthorized access and vandalism
- enough space for mini PC or Set Top Box
- standard: anthracite grey (RAL 7016), more RAL colours on request
- double sensor-based temperature control
- thanks to high-quality heating and ventilation suitable for an ambient temperature range between -25 and +40°C
- option: WLAN antenna (Item no.: 2515)
- option: RAL colour as desired (Item no.: 1657)

Item no.:	Item name	recommended screen size	Dimensions	Colour
1662	ScreenOut Eco Kiosk M - incl. heating & high-quality ventilation	46 - 49"   117 - 124 cm	W 963 x H 1950 x D 348 mm	■ RAL 7016

## HAG-BR-30 fire protection flap set

optional ventilation for high brightness screens

- suitable for HAG-BR-30 Fire protection enclosures and HAG-BR-30 Kiosk Portrait Fire protection totem
- additional ventilation for screens with high heat generation, e.g. high brightness screens
- closes at an ambient temperature of 72 °C

Item no.:	Item name
2800	HAG-BR-30 fire protection flap set

## FIRE PROTECTION

Fire protection is relevant in many fields of everyday life. Sprinkler systems, fire extinguishers or automatic fire detection systems directly strike the eye in this regard.

However, fire protection generally includes all measures preventing the formation and spreading of fire, enabling the rescue of people and animals and effective firefighting operations in case of fire.

The demands to technology and systems are particularly high in emergency and escape routes. The EU's fire protection regulations do therefore not allow to use "normal" monitor enclosures as these protective enclosures are not only supposed to protect the screens from unauthorized access and vandalism but make sure that there are no risks emanating from the screens and displays used. For that reason, the demands to materials and workmanship have been particularly defined.

HAGOR Products offers many different versions of protective enclosures or totems, depending on the desired place of installation, with certification.

## vis-it® portrait

Indoor totem

- portrait installation
- internal cable routing
- integrated multiple plugbar
- colour: RAL-colour on request
- protection from unauthorized access by way of lockable door on the back, e. g. for mini PC etc.
- active ventilation (low-noise)
- for screens up to a depth of 68 mm max.
- optional:
  - set of castors with enlarged base plate (Item no.: 1977)
  - mini base plate to screw down on the floor (Item no.: 1999)
  - logo - foil lettering (Item no.: 1552)
  - WLAN rod antenna (Item no.: 2517)
  - WLAN omnidirectional antenna (Item no.: 2518)

Cable sock (KS) with velcro

- made of elastic polyester
- ideal for laying almost all types of cables sideways
- length can be individually adjusted
- cables can be run in and out at any point
- universal width for high cable volume (max. 85 mm)

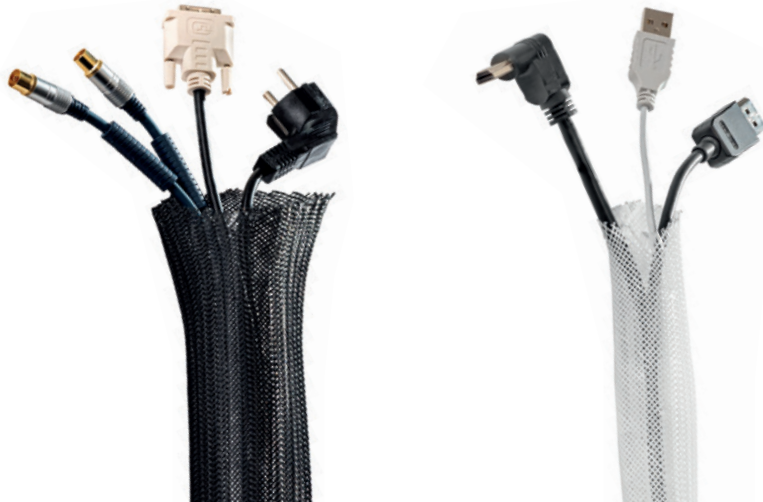

Item no.:	Item name	Length	Width	Colour
8841	KS Velcro Roll (Ø 35 - 85 mm   50 m   black)	50 m	Ø 35 - 85 mm	■
8846	KS Velcro Roll (Ø 35 - 85 mm   50 m   white)	50 m	Ø 35 - 85 mm	□
8845	KS Velcro (Ø 35 - 85 mm   5 m   black)	5 m	Ø 35 - 85 mm	■
8850	KS Velcro (Ø 35 - 85 mm   5 m   white)	5 m	Ø 35 - 85 mm	□

## KS Sleeve

Cable sock (KS), stretchable

- stretchable to twice the size
- made of elastic polyester
- length can be individually adjusted

Item no.:	Item name	Length	Width	Colour
8851	KS Sleeve Roll (Ø 25 - 50 mm   50 m   black)	50 m	Ø 25 - 50 mm	■
8856	KS Sleeve Roll (Ø 25 - 50 mm   50 m   white)	50 m	Ø 25 - 50 mm	□
8855	KS Sleeve (Ø 25 - 50 mm   5 m   black)	5 m	Ø 25 - 50 mm	■
8860	KS Sleeve (Ø 25 - 50 mm   5 m   white)	5 m	Ø 25 - 50 mm	□
8861	KS Sleeve Roll (Ø 45 - 90 mm   50 m   black)	50 m	Ø 45 - 90 mm	■
8866	KS Sleeve Roll (Ø 45 - 90 mm   50 m   white)	50 m	Ø 45 - 90 mm	□
8865	KS Sleeve (Ø 45 - 90 mm   5 m   black)	5 m	Ø 45 - 90 mm	■
8870	KS Sleeve (Ø 45 - 90 mm   5 m   white)	5 m	Ø 45 - 90 mm	□

## KS Zipper

Cable sock (KS) with zipper

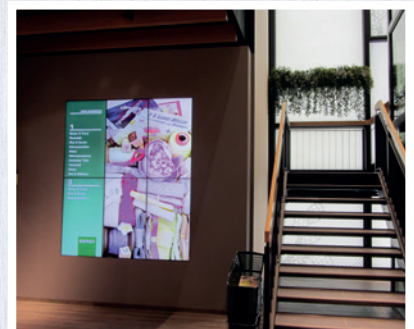

- made of polyester
- ideal for installation of almost all types of cables
- cables are securely held together

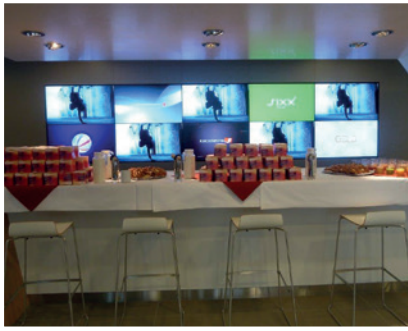

Item no.:	Item name	Length	Width	Colour
8871	KS Zipper (Ø 30 mm   1 m   black)	1 m	Ø 30 mm	■
8872	KS Zipper (Ø 30 mm   1 m   white)	1 m	Ø 30 mm	□
8873	KS Zipper (Ø 30 mm   2 m   black)	2 m	Ø 30 mm	■
8874	KS Zipper (Ø 30 mm   2 m   white)	2 m	Ø 30 mm	□
8875	KS Zipper (Ø 45 mm   1 m   black)	1 m	Ø 45 mm	■
8876	KS Zipper (Ø 45 mm   1 m   white)	1 m	Ø 45 mm	□
8877	KS Zipper (Ø 45 mm   2 m   black)	2 m	Ø 45 mm	■
8878	KS Zipper (Ø 45 mm   2 m   white)	2 m	Ø 45 mm	□
