

Homefix I

Universal ceiling lift for projectors

Item no.: 2199

The Homefix XXL is a universal ceiling lift for projectors, which is characterized by its low installation height.

The total height of the aluminum and steel made ceiling lifts is variable and consists of the projector height plus 115 mm for the installation height.

The lifting system offers a lifting force of 1 up to 25 kg and runs quietly and smoothly. The driveway is 800 mm max. and can be optionally expanded (in 300 mm steps up to 2700 mm max.) if required.

A mini handheld transmitter with 20 m radio range is included in the scope of delivery. If necessary, the ceiling lift can also be integrated into a multimedia control such as GIRA, KNX, LOXONE or other radio transmitters (not included).

The ceiling installation frame, required for integrated ceiling installation, is already included in the scope of delivery.

low installation height

space-saving belt strap guide for smooth, quiet operation

Homefix I

Universal ceiling lift for projectors

Item no.: 2199
