

Truss Adapter Plate

Item no.: 2239

The trusses available as optional accessories adapter plate allows the inclusion of PLD- and HA DH brackets for flat screens and projectors for attachment under trusses.

The article set consists of a stable carrier plate, two half clamps for round tubes and all fastening materials for screw connection with the mounting system.

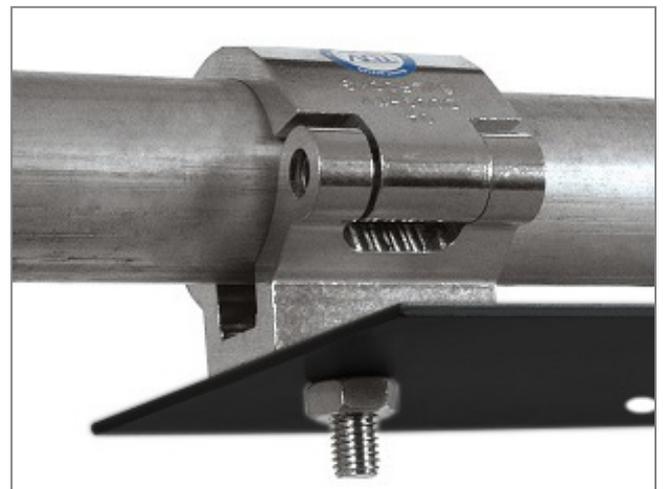

The truss adapter plate offers the possibility of a classic ceiling bracket even at temporary events such as e. G. exhibitions or fairs to use.

The two stable pipe clamps are variable adjustable in diameter between \varnothing 45 and 90 mm.

The max. load of the used ceiling bracket remains.

To accommodate all HAGOR ceiling brackets

including two pipe clamps, adjustable from \varnothing 45 up to 90 mm
