HP Stand 55
mobile stand system

Item.: 9425

The HP Stand 55 is a mobile stand system for a screen with a size from 37 to 65″ / 94 - 165 mm.

The VESA standard is supported from 200 x 200 mm (mounting directly on the plate) to a maximum of VESA 800 x 500 mm. The VESA mount can be tilted continuously from -5 to + 15° and can be rotated by 90°.

As a result, the VESA mount offers the possibility of quickly and easily rotating the screen from landscape to portrait orientation without having to disassemble the screen.

The column system is made of high-quality aluminum and has an internal cable routing. It is extremely stable and therefore allows the installation of larger screens.
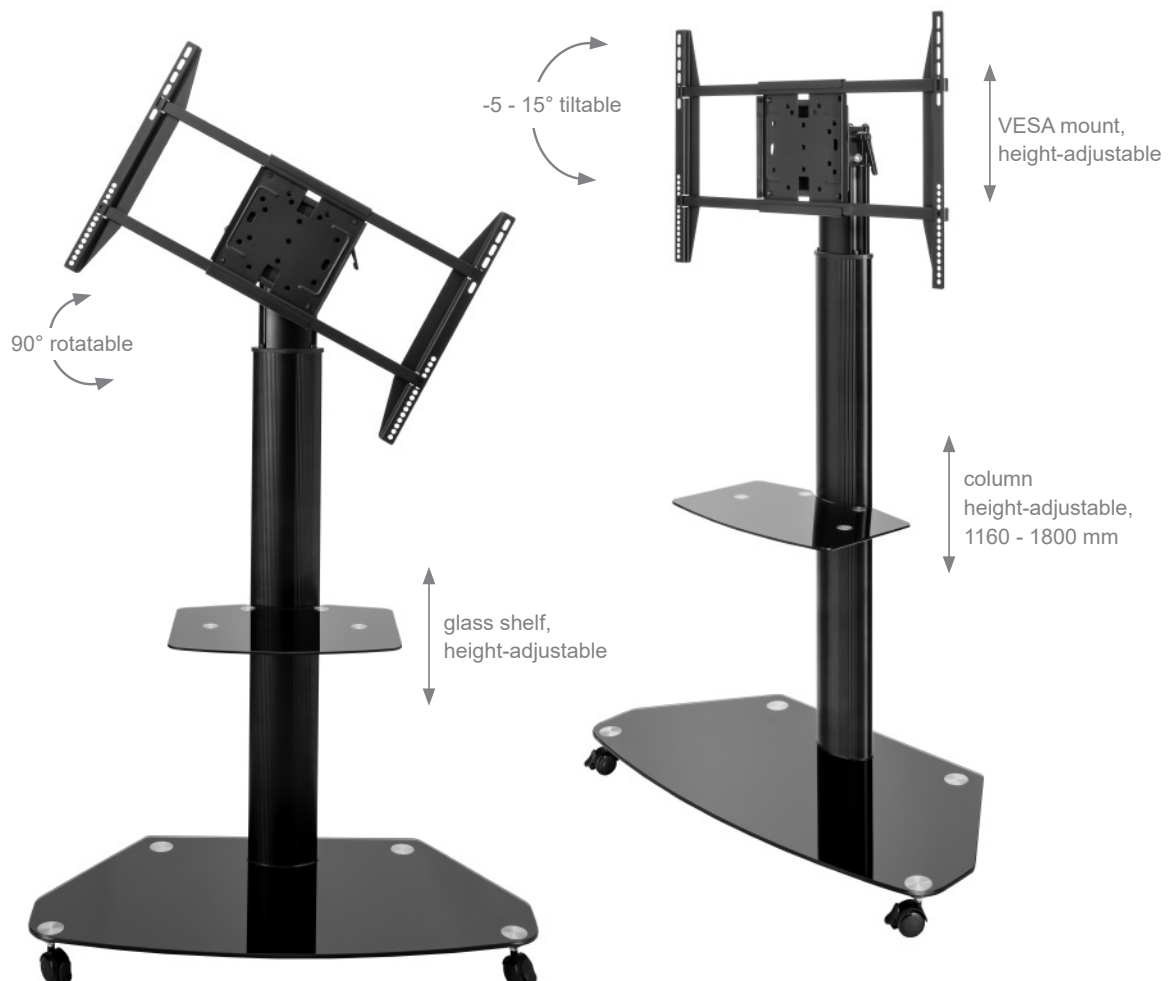

A glass shelf for AV equipment is included in the scope of delivery. It is height-adjustable and can be positioned freely along the column height of 1800 mm.

The column is also height-adjustable between 1160 mm min. and 1800 mm max.. Thanks to the included set of castors the HP Stand 55 can be moved from place to place, the integrated lock-type brakes ensure stability.

The load capacity of the VESA mount is 40 kg max., the glass shelf can carry 15 kg max..

Additional glass shelves or an Disinfectant dispenser an be installed as an option.If necessary several glass shelves can be mounted one above the other.

HP Stand 55 glass shelf (Item no.: 1926)

90° rotatable

-5 - 15° tiltable

VESA mount, height-adjustable

glass shelf, height-adjustable

column height-adjustable, 1160 - 1800 mm
