

## Floorstand Lift Pro Light Dual Black

Item no.: 8217

### Height adjustable lift system for 2 screens

The Floorstand Lift Pro Light Dual Black is a height adjustable lift system for two screens from 46 - 65" | 117 - 165 cm.

The screens are mounted „side-by-side“ in landscape format. The VESA mount supports screens with a VESA standard up to max. 800x600 mm.

The height of the screen can be electromotive adjusted by using a key switch. The travel way of 978 mm enables the screen height to be optimally adjusted for both standing and seated viewers. The start and end points can be programmed and can thus be adjusted to the individual needs.

The lift system also has included collision protection, which immediately stops the screen from moving as soon as resistance occurs.

The tilt-proof base plate ensures a stable stand.

Thanks to the asymmetrical shaped base the system can be positioned close to a wall.

The required footprint is W 1045 x D 700 mm.

The Floorstand Lift Pro Light Dual Black has an integrated media cabinet, which can be locked and safely protects AV equipment stored there from unauthorized access or theft.

Thanks to the maximum load of up to 120 kg (2x 60 kg) the system is also suitable for large, heavy screens.

The cable management is neatly organized via a flexibly running drag chain.

A height-adjustable camera holder is optionally available (Lift Pro Light Camera Holder Black - Item no.: 8902).

flexibly running drag chain

lockable media cabinet

wired remote control

## Floorstand Lift Pro Light Dual Black

Item no.: 8217

### Height adjustable lift system for 2 screens

- for 2 screens „side-by-side“
- 46 - 65“ | 117 - 165 cm
- incl. VESA holder up to max. 800 x 600 mm
- installation in landscape format
- tilt-proof base plate
- required floor space: W 1045 x D 700 mm
- total height: 2169 mm
- height adjustable between min. 836 and max. 1818 mm (approx. centre of screen)
- the start and end point is programmable
- 978 mm travel way
- wired remote control
- electro-motorized height adjustment
- collision prevention - lift stops when there is resistance
- lockable media cabinet, incl. multiple plug and shelf for mini PC, for example: Intel NUC
- cable management via energy chain
- 120 kg max. load (2x 60 kg)
- impact and scratch resistant powder-coating
- colour: black
- optional:
