

PLD Large Single Ceiling Mount

Item no.: 8602

The ceiling mount PLD Large Single is suitable for single screens with a screen diagonal of 49 - 65" | 124 - 165 cm.

The screen can electively be mounted in landscape or portrait format. The VESA standards up to max. VESA 600 x 400 mm are supported.

Thanks to the included tilt module, the mount can also be used on ceilings with an incline, 0 - 90° are possible here.

The VESA mount can be tilted continuously from -5 to +15° and can also be swiveled ±30°.

The variable ceiling extension can be telescoped and thus allows a ceiling distance between 920 - 3000 mm (centre of screen).

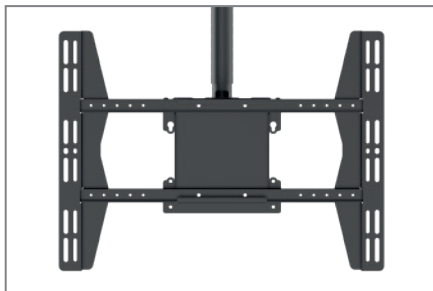

Thanks to a clever access system, the cabling disappears inside the mount.

The surface of the ceiling mount is finished with an impact- and scratch- resistant powder coating in black.

The max. load is 50 kg.

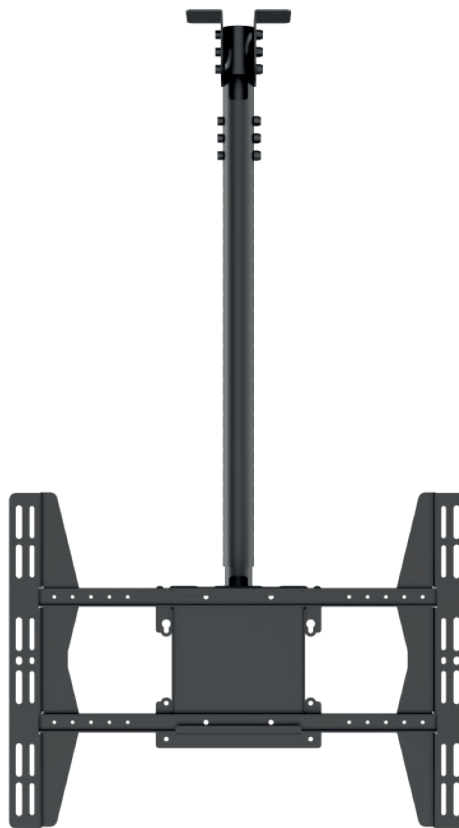

tilting module, continuous, 0 - 90°

max. VESA 600 x 400 mm

telescopic up to max. 3000 mm

PLD Large Single Ceiling Mount

Item no.: 8602
