

Beamfix II 520 - 600 mm

Ceiling mount for projectors

Item no.: 8651

The Beamfix II 520 - 600 mm is a universal solution for mounting almost all commercially available projectors on the ceiling.

The ceiling mounting plate provides a stable hold to hold the projector ceiling mount securely and for a long time in position. The max. load is 10 kg.

Thanks to the flexibly adjustable mounting arms, you can reach every fastening point on the device to be installed.

The mounting arms can be varied between a minimum of \varnothing 180 mm and a maximum of \varnothing 400 mm.

The mount can be rotated by 360° via tools and can be tilted and swiveled by $\pm 20^\circ$, which enables simple and precise alignment with the projection surface.

The ceiling distance can be varied between 520 and 600 mm and can be easily locked using a practical rotary handle.

The cable routing is concealed within the telescopic tube.

The surface of the ceiling mount is finished with an impact- and scratch-resistant powder coating in white.

Beamfix II 520 - 600 mm

Ceiling mount for projectors

Item no.: 8651

- Universal ceiling mount for almost every commercially available projector models
- variable length mounting arms
Ø min. 180 to Ø max. 400 mm
- $\pm 20^\circ$ tiltable
- $\pm 20^\circ$ swivelling
- $\pm 180^\circ$ rotatable
- variable ceiling distance, 520 - 600 mm
- 155 mm Ø ceiling mounting plate with cover
- multidimensional adjustment thanks to the ball joint
- 10 kg max. load
- impact- and scratch-resistant powder coating
- colour: white
- incl. all fastening materials
- quick coupling for quick assembly and revision of the device, e.g. for inspection or cleaning
