## **HP Twin Lift FS-DW**

## free standing, height adjustable lift system

The HP Twin Lift FS-DW is a free standing, height adjustable lift system with a dual mount for two screens from 46" to 65" | 117 - 165 cm side-by-side.

The screen mount includes the VESA standard up to max. 600 x 400 mm, for 65" screens max. 400 x 400 mm. The screens are mounted in landscape orientation.

The height of the screens can be adjusted electro-motorized by a wired remote control. The stroke of 980 mm makes it possible to adjust the screen height optimally for standing and seated viewers as well.

The lift system also has a collision protection, which stops the movement of the screen as soon as resistance is encountered, thus preventing damage.

Thanks to the asymmetrically shaped base, it is possible to position the system close to a wall. The footprint of the tilt proof base plate is W  $1045 \times D 700 \text{ mm}$ .

Item no.: 8256

The HP Twin Lift FS-DW has an integrated media cabinet, which is lockable and reliably protects the AV equipment stored there from unauthorised access.

The maximum load is 120 kg (2x 60 kg).

Cable management is neatly organised via a flexible cable drag chain.

A height adjustable camera holder is already included in the scope of delivery and can be used optionally.

As an optional accessory, the HP Twin Lift - Laptop Holder White | Item no.: 8914 is available.
